A prize has been offered by His Excellency the Governor for a joint competition amongst members of the Colombo and Nuwara Eliya Golf Clubs (the prize to become the absolute property of the winner). *Qualifications*—Medal play, finals match play. One qualifyng round of 18 holes medal play under handicap to be played by the competing members of each Club on their respective links. The four best scores nett for the round returned by the members of each Club to qualify the players for the further match play competition, which will take place over Nuwara Eliya Links in September. The eight players left in will play matches of 18 holes except the final which will be a match of two rounds of 18 holes to be played off in one day. The qualifying round under the auspices of the Nuwara Eliya Golf Club which was played on August 29th, conjointly with the 5th Nomination of the Captain's Cup are as follows:—

	Score.	H'cap.	Nett.
W P Spurway	109	18	91
Hon J N Campbell	98	8	90
G W Goodeve	103	3	100
H T S Ward	89	6	83
F J Healing	86	3	83
John Fraser	103	15	88
W A Mooyaart-Denison	107	8	99
J E Baillie-Hamilton	96	6	90
Neil G Campbell	103	3	100

Of the others who competed for the two above events were: R Hood Wright (12), H H Phelp (6), C S Wright (3) W Dowine Smith (12), N A Hampton (16), Frank Stewart (18), J S Patterson (14), L T Boustead (12), A C W Clarke (10), G G Ross Clarke (12), and John Robson (8).

The first three who in this competition were qualified to enter for the further match play competition for the Governor's prize were Messrs F J Healing, H T S Ward and John Fraser. Messrs Healing and Ward tied with nett scores of 83, to these fell the first and second place. Mr. John Fraser got third with nett score of 86. Hon Mr J N Campbell and J E Baillie-Hamilton tied with a nett score of 90 for the fourth place. These gentlemen played off a second round of 18 holes, when Mr Baillie-Hamilton got placed fourth with a score as follows: 90, 6, 84.

THE FIFTH NOMINATION OF THE CAPTAIN'S CUP

has fallen to Mr F J Healing who also gets the usual box of presentation Golf balls going with the nomination.

THE GOLF COMPETITION FOR THE GOVERNOR'S PRIZE.

COLOMBO GOLF CLUB'S COMPETITORS.

The qualifying round amongst members of the above Club, for the prize offered by H.E. the Governor for competition at Nuwara Eliya this month amongst Members of the N.E. G. C. and C. G. C. took place on the Ridgeway Links, at Borella on August 29th, and resulted as follows:—

	Gross.	H'cap.	Nett.
F W Bois ...	94	18	76
A R Linton ...	82	6	76
A W J Watt ...	89	9	80
E Human ..	89	9	80
T S Clark ..	95	14	81
H Goodwyn ..	91	10	81
N J G Robertson..	99	18	81
H Creasy ..	94	12	82
W P Ampenoff ..	87	4	83
A E Gardner ...	85	2	83
C T Young ...	93	9	84
R Davidson ..	88	4	84
H W Cave ...	93	8	85
J Harward ..	104	18	86
J G Melrose ...	88	plus 3	86
J Mackie ...	93	6	87
W B Cooke ...	91	4	87
S Cave ...	92	4	88
D Kydd ..	98	10	88
G H Alston ...	99	10	89
Robt. Steuart ..	105	16	89
W Duncan ..	92	2	90
G A Ginn ..	102	12	90
E J Hayward ..	101	10	91
W Somerville ..	93	scr.	93
Fred. Walker ..	101	8	93
F West ..	111	18	93
S Mitchell ..	104	10	94

As the best four returns of each side entitle the competitors to take part in the final competition, the following will play:—

COLOMBO GOLF CLUB.—F W Bois, E Human, A W J Watt and A R Linton.

NUWARA ELIYA GOLF CLUB.—H T S Ward, F J Healing, John Fraser and J E Baillie-Hamilton. The above players are handicapped by a Committee composed of two members of each Club, with the Hon. Mr. J N Campbell as Chairman.

THE SEMI-FINALS.

Nuwara Eliya, Sept. 23.—The semi-finals in the above competition were played off at 2·30 p.m in wet weather. The following are results:—F J Healing (scr.) beat F W Bois (12) 3 up and 2 to play; J Baillie-Hamilton (5) beat E Human (7) 5 up and 3 to play. F J Healing meets J Baillie-Hamilton in the final.

BAILLIE-HAMILTON WINS THE CUP.

Bailie-Hamilton beat Healing, 7 up and 5 to play in the second round of the final.

H.E. the Governor, Sir Francis Burdett and Capt. Gooch were present. The Governor presented the Cup at the Hill Club to the winner.

SPORT IN CEYLON.

CRICKET, FOOTBALL, HOCKEY, RACES, &c.

We continue this month our special Sport Supplement, commenced in our October number. The following account of Ceylon Sports will be found by Upcountry readers especially, to be a convenient and handy record of recent events in the Ceylon world of Sport, and the compilation will be of great use for future reference to past Athletic events, especially to Secretaries and Club officials.

AMATEUR ATHLETIC ASSOCIATION OF CEYLON: AT DARRAWELLA.

(*By our Special Representative.*)

Dikoya, Nov. 6.

The last meet, under the auspices of the Association, was held in 1900 at Kandy, since which time the interest in the Association flagged to such an extent, that it was thought that a Meet under the auspices of the Association would never be organised again, and that notwithstanding former successes. The meets, it was said, would pass into history and exist only as a memory. So strong was this opinion among athletes generally with regard to its down-fall that the Championship events were during 1901 and 1902 divided into twos and threes and included for competition in the four Annual Athletic Sport fixtures of the Colombo, Dimbula, Agras and Dikoya Clubs. Mr O S Wickwar, the Honorary Secretary of the Association, however, undertook to rouse interest in the Association and right well has he done so and with so much dogged persistence and indefatigable energy that he soon succeeded in adding new life to the smouldering embers and resuscitated a forlorn hope beyond all expectations. His efforts to advance the standard of athletics in Ceylon was stoutly supported upcountry. Challenge cups have been secured and offered for each Championship event to arouse interests in the competitions—while the meets of the Association will be held every year on the different grounds of the four Clubs with a view to popularising the meets in Colombo and Upcountry. It was to further this new endeavour that the Meet was fixed to take place at Darrawella this year and next year will, it is reported, be held at Radella.

The ground was heavy yesterday. Consequently no previous Ceylon records were broken.

The arrangements for the day were in the hands of Mr. Norman Rowsell, Ceylon's most ardent athlete and sportsman; consequently nothing was left undone to ensure general satisfaction. The most fastidious could not suggest any improvement on the carefully schemed details.

The attendance present indicated the popularity of the meet upcountry—which was ruled over by such well-known officials as Lieut. Col. Farquharson, Mr. W S T Saunders and Mr. P H Papillon as Judges, Mr. Norman Rowsell as starter, and Mr J B Carruthers who was to act as Time-keeper. He was, however, unfortunately unable to attend. Mr. W B Bartlett performed this duty for the 100 yards event, after he went, the watch was entrusted to Mr. R Leonard. All of these did their duties to nicety.

THE SPORTS: RESULTS AND TIMES.

100 YARDS.—*First Heat.*—Time 10⅗ seconds. 1st E R Porteous, 2nd F C Smith and 0 W E Vowler. Porteous ran home easily yards ahead of Smith. *Second Heat.*—Time 11 1-5 seconds. 1st W H M Davies, 2nd R Leonard, 0 Lieut C B Down and 0 R Picton Warlow. Davies ran a hard race and breasted the tape with Leonard at his heels. *Finals.*—Time 10 4-5 seconds. 1st E R Porteous, 2nd W H M Davies, 3rd F C Smith, and 0 R Leonard. Leonard led half way through and suddenly came to a second's halt, and Porteous, putting in aspurt, leapt ahead of Davies who was following. Davies was divided from him by a yard—and Smith third was 2 yards away from second place. Leonard was noticed to have a limp after this heat and on enquiring our rep resentative learnt that he had sprained a tendon in his left thigh which has given him trouble previously at home. The event left Col Savage's Lang's, F J P Roberts' and S Moorhouse's, times—all of whom previously covered this distance in 10 1-5 seconds—unchanged.

HIGH JUMP.—1st, W E Vowler, 5 feet 1½ inches, 2nd, A M Cooper, 5 feet ¼ inches.

F C Smith was knocked out when 4 feet 11¼ inches was jumped. E R Porteous could not exceed 4 feet 10 inches. The performances of the entrants for this event was very disappointing. Vowler made two attempts to clear 5 feet 2 in and failed, and on the 16th of November last year at the annual athletic meet of the D M C C, he jumped 5 ft 2¾ in. The ground was heavy, and no spring was obtainable. S P Wood's fine record of 5 ft 5½ in at Colombo in 1899 could not be broken.

HALF-MILE.

Time: 2 min 22 1-5 sec.—H Brown, M Johnstone and C Templer, the three entered competitors, started. After the half round of the first lap was completed, Brown displaced empler who led from the start, when three-quarters of the first lap was covered. Johnstone started to lead; in this position the first one-and-a-half laps was run when Templer dropped out. Johnstone, running without the slightest exertion, got home 10 yards ahead of Brown, who was completely done up at the finish. Johnstone certainly had all his wind in

reserve for a spurt if there was going to be a race at the finish. The time is creditable; it is just possible that G D Brebner's stand-out performance of 1895 when he ran home in 2 min 13 3 5 sec would have been beaten had C Shelley or H B Kirk entered, and forced Johnstone to pace in a stronger fashion than he did.

LONG JUMP.

1st A M Cooper 19ft 5½in, 2nd F C Smith 19ft 3½in 3rd Lieut C B Down 18ft 6in, 0 W E Vowler 18ft 3in,

The jumps were poor. True, the ground was heavy, and hard going; but it was hoped Vowler would make some show. At the D A C C Sports at Radella last year, he jumped 20 feet and was placed second at the D M C C Annual Sports Later he was far and away behind his Radela performance with a jump of 19 feet 1 inch. Cooper, on the other hand, has won the event for the first time in Ceylon and may yet touch H B Kirk's record of 20 feet 8¾ at the Agras in January last year.

120 YARDS HURDLES.

Time 19·1-5 secs. Six competitors were entered for this event and they were to have run in two preliminary heats. But H G Moir and A M Cooper scratching, the event was run off in one heat. Smith led up to the eleventh hurdle Vowler ran in at the last and breasted the tape 20 inches from Smith. Lieutenant Down, who was left badly at the start, got home third. R Picton Warlow tailed off. The best time for this event in Ceylon is that of L E Dolman who is said to have done it in 17 2-5 secs.

PUTTING THE SHOT, 16LB.

N G Bonaparte-Wyse, 37 ft. 8 in. 1st; Wernham 35 ft. 11 in. 2nd; H E Greig, 32 ft. 5 in., 0; A M Cooper, 26 ft. 7 in., 0.

N G Wyse failed to repeat his fine performance of January at the Agras this year when he put 38 ft. 9 in.; Wernham, too, was not up to his 1898 Gampola A. A A form when he put 38 ft. 2 in. H A Greig, from whom much was expected after the form he displayed at the Agras Annual Athletic Meet this year, failed to come off.

QUARTER MILE.

Time: 58 1-5 sec.—Of thesix entered, R Leonard, owing to his mishap in the 100 yards event, was unable to compete. Cooper also scratched; this left Porteous, Brown and Davies in ahead of the starter. Porteous 50 yards from starting point, outstripped Templer who had the best of the start, and got first unchallenged, yards ahead of Templer. Davies got home a poor third. Brown fell out at the very start of the race. This event terminated the day's sports.

D. M. C. C. ANNUAL ATHLETIC SPORTS AT DARRAWELLA.

NOVEMBER 7TH.

(*By Our Special Representative.*)

These sports at Darrawella passed off with the success which is characteristic of the two planting centres of Ceylon. At Darrawella the D. M. C. C. do things well. The Sports Committee included:—Messrs. W S T Saunders, N Rowsell and P H Papillon, V. A.s and planters of prominence on whose shoulders the conducting of the integral welfare of the districts also rests. And yet, with all the pressure on their time for advancing the best interests of the districts, they are foremost in the field of sport and greatly help with their assistance the perfecting of the most minute details for the day's events. With such material available, the order which prevailed and the fine points enforced were not to be wondered at. That no records were broken was owing to the heavy condition of the ground. The nearest approach to beat a present record was made by F Wernham in the Putting the Shot event, when, with an excellent put, he shot 38ft. 8½ in. or ½inch less than N G B Wyse's performance at the Agras Sports in January this year. The put is also 6½in. over this very performer's put made in January 1898 at Gampola viz., 38ft. 2ins. with which he held the record of the Island for very nearly five years. Wernham promises to do better next time. He has still not got over the accident to his right ankle. The second heat of the Hundred Yards event was timed at 11 seconds which was considered very good for the condition of the ground. The other flat events were done in creditable time. The 120 yards Hurdles at the A A A meet on Friday was done in 19 1-5 seconds. On Saturday the final event took 2-5ths of a second more—which should not have been as the ground was in better condition than on Friday. The competitors were no doubt at this advanced hour of the afternoon feeling the effects of the two days' exertions, and that of Thursday night's dance. At 10 a.m., ominous clouds banked up on the South-Western horizon over the Maskeliya group of hills. The majority of the veterans present, and the younger planters—all of whom may be looked up to as weather prophets—foretold heavy rain as certain any time after 1 p.m., but beyond a sprinkling drizzle no rain fell. The sun, on the contrary, shone brilliantly.

GOLF.

Lowest Score of 2 holes:—Twelve competed for this event. F C Smith was first with score of 12 from scratch; Robertson, Grant and Craib tied for second place from scratch with a score of 13. In the knock off Grant was placed second with a score of 11. Other competitors were John Anderson (scr.), R C Fowler (scr.), C A Hartley (plus 1), E F Fuller (plus 2), A N Cantlay (plus 2), C E Shuttleworth (plus 2), G B de Mowbray (plus 1), and W B Bartlett (plus 1). This event was won last year by H Creasy with a handicap of plus one. Grant, handicap plus one, was second.

QUOITS.

First Round—G B de Mowbray and R Cotesworth beat W E Vowler and T Cantrell 11/5, G H Moir and H C T Mackay beat C Shuttleworth and Roy Anderson 11/8, J H Spedding and Norman Rowsell beat J Ireson and A C Wilson 11/8. *Second Round with Byes.*—J MacRae and G H Kirby beat D Robertson and A N Cantlay 11/4, R C Grant and A Craib beat De Mowbray and Cotesworth 11/2, O C Edwards and C J Acton beat J E Biddell and E F Fuller 11/9. *Semi final.*—Grant and Craib beat MacRae and Kirby 11/4, Moir and Mackay beat Edwards and Acton 11/3. *Finals.*—R C Grant and A Craib beat H G Moir and H C T Mackay 10/11.

A great game was witnessed in the final struggle. Moir and Mackay, with lots of luck, lead off with 3 points to love. Craib and Grant, with much determination, equalised their opponents' score and essayed to lead by a point. In the next rounds Mackay played badly, but Moir added a point to the score and made it 4 all. Mackay again failed to score, but Moir equalised the lead of his opponents and made it five all. Then Craib threw in both his quoits and raised the lead

to 9/7. At this stage Moir collapsed and Mackay came to the rescue with two splendid quoits; as a result the score was made to read 9 all. Craib and his partner failed to add to their score in the following rounds. Mackay, getting in a good quoit, lead with Moir 10/9, but in the next round Craib with a "Bonnie Shottie" made it 10 all. Moir missed again and Grant, with a pretty quoit, won an exciting game which was watched by nearly everybody present at the Sports before the breakfast interval, which followed soon after the game was concluded. In the finals last year Keith, Rollo and G A Wyatt beat J R Neale and E M Wyatt 11/1.

FOOTBALL: PLACE AND DROP KICKING.

R Borough scratched. Ten out of eleven competed for this event which was won by A C Wilson with four points. D Robertson and F C Smith tied with three points each. In the next round Robertson scored a point, but Smith failed. Robertson was placed second. Other competitors were:—W E Vowler, T Cantrell, H G Moir, J E Biddell, N Rowsell, S P Bell, and E F Fuller.

Special mention must be made of Moir's brilliant kicking. He, however, had bad luck, and twice failed to get between the posts owing to a gust of wind which came up as soon as ever he had put in his kick. By a singular coincidence Wilson and Robertson carried the first and second prizes respectively last year.

PUTTING THE SHOT.

N Bonaparte Wyse was not present to defend his unbeaten record put of 38 feet 9 inches, although he was entered to compete for this event. His forthcoming departure from Ceylon on furlough no doubt prevented his attending the sports last Saturday. Wernham, as was expected, carried off the event handsomely. It was rough luck on him not to have put on an extra half-inch to his put of 38 feet 8½ inches, which would have placed him level, if not over Bonaparte Wyse, who brought him down from his honored pedestal as Ceylon's best shot putting man—which he was from 1898 till January 3rd of this year. The performance last Saturday in this event was much better than that of the Amateur Athletic Association records of the previous day. Greig was second with a 33 feet 9 inch put to which his handicap of 4 feet made 37 feet 9 inches, W B Bartlett—the veteran from Dimbulla—was third with a put of 28 feet 2 inches. His 9 feet handicap brought him on to 37—2. Cooper retired after his first put. This event was not held last year.

THROWING THE CRICKET BALL.

First.—W B Bartlett, 86 yards 5 feet plus 18 yards, equal to 104 yards 5 feet; *Second*—A M yooper, 102 yards 9 feet, scratch, equal 102 yards 9 feet; *Third*—W E Vowler, 87 yards 1 foot 5 inches, plus 12 yards, equal 99 yards 1 foot 5 inches. N F MacRae, S P Bell, and R C Fowler also competed for this event, which last year was won by W R F Brock with a throw of 101 yards 1 foot 10 inches from scratch.

100 YARDS HANDICAP—*First heat*—Time 11 1-5th seconds.—1st E R Porteous from scratch, 2nd W A Wilson, plus 5 yards, 0 R C Fowler, plus 3 yards. R Picton-Warlow (plus 2 yards) and C W Jones (plus 4 yards), scratched. Porteous beat Wilson who was leading from the start 10 yards from home, by 1½ yards. *Second heat*—Time 11 seconds.—1st A Greig plus 3 yards, 2nd W E Vowler, plus 2 yards, 0 J Fraser Gordon, plus 4 yards. Greig led all the way and won. Vowler put in a strong spurt 15 yards from home, but lost by 1 yd. Fraser Gordon was a good third. R Brough, plus 4 yards and F C Smith, plus 2 yards, scratched. *Third heat.*—Time 11 1-5 seconds. C Bruce 2 yards and A M Cooper, plus 2 yards, scratched. 1st W H M Davies, 2nd G Templer, 0 M Johnstone, 0 T Cantrell. A great race. The quartette came up in a lump. Davies was home from Templer by half a yard. Johnstone and Cantrell were at Templer's heels. *Finals*—Time 11 1-5. Porteous got left badly at the start. Greig took the lead and maintained it: on the tape Porteous won by a foot. Porteous and Greig seemed to have got in a dead heat Davies was 2 feet behind Greig. This event was won last year as follows:—*Finals.*—1st, Brock, 2nd, Porteous, 3rd Brown; also ran Palmer, Greig and Smith.

HIGH JUMP.

Of the six entered for this event, G Templer, plus 2 inches, did not compete. G H Baird, plus 4 inches, failed to clear 4 feet 8½ inches. Porteous, plus 1 inch, was knocked out after 11½ inches. Smith at 5 feet. Vowler was knocked out at 5 feet 1 inch. Cooper was left in alone. He stopped after jumping 5 feet 2½ inches. This left Smith, who had plus 1 inch to tie with Vowler for second prize. They made three other bids to jump over the last performances, but failed, so the judges decided to divide the second prize between them. Vowler won this event last year with owe 2 inches by 5 feet 2½ inches. W R Brock, owe 2 inches, was second with 5 feet 1½.

HALF-MILE HANDICAP.

Time 2 minutes 13 2-5 seconds.—Of the 10 entered competitors, N F Macrae, plus 35 yards, and R Brough, plus 35 yards, scratched. The other eight started with the following result:—1st Farr, jnr. 30 yards, 2nd W B Bartlett 35 yads. Also ran G Templer, plus 30 yards, M Johnstone scratch, and G H Sparkes, plus 35 yards. H A Brown 5 yards, W A Wilson 45 yards, G H Baird 45 yards. Wilson, who was leading, dropped out after the half of the first lap was covered, and Bartlett now led. 1½ laps were covered when Baird, Johnstone and Brown dropped out Bartlett was still ahead and was the fancied winner when Farr 100 yards from home came on with a great spurt and breasted the tape 12 yards away from Bartlett from whom Templer was divided by 5 yards. This event was won last year by H A L Brown who ran from scratch.

120 YARDS HURDLES.—*1st Heat*—Time 20 1-5th seconds.—S P Bell was entered for this heat as there were to be two non-starters in the second heat. Consequently only three of the four entered starters competed, viz., G H Moir minus 4 yards, who came in an easy first, F C Smith minus 4 yards was second, while A Alger minus 2 yards came in a very good third. *2nd Heat*—Time 19 3 5th seconds. A M Cooper minus 2 yards and R Picton Warlow minus 2 yards scratched and left three, viz., S P Bell scratch, W E Vowler minus 5 yards and C Bruce minus 3 yards. Vowler, with beautiful jumping, was first to breast the tape. Bell came in a yard behind. Bruce, who was hurt at the sixth hurdle dropped out. *Final heat*—Time 19 3 5th seconds. 1st S P Bell and 2nd F C Smith. Bell led all the way, and just won from Smith by a foot. Last year's result was *Final*—Time 19 seconds—Palmer and Brock ran in a dead heat, and, in a second run, Palmer won from Brock by 2 feet.

QUARTER-MILE.

Time 55½ seconds. Fifteen were entered for this event out of which no less than nine, scratched and the following started:—W A Greig plus 20 yards, T Cantrell plus 30 yards, M Johnstone plus 7 yards, E R Porteous scratch, W A Wilson plus 20 yards. Farr jun, plus 15 yards. Cantrell lead all the way round the lap, and was beaten just from home by Greig who ran a great race, and won amid cries of "Well run, Maskeliya." Porteous beat Cantrell by a foot on the tape for second place. Wilson dropped out when half the distance was covered. Winners last year were F J Marshall, plus 10 yards, first. H D Goldsmith plus 20 yards, second. Time 57 1-5 seconds.

LONG JUMP.

Eleven were entered for this event; five scratched:—

	Actual jump. ft. ins.	H'cap. ins.	Total. ft. ins.
1st G Templer ..	17 2	plus 24 equal to	19 2
1st "C Bruce" ..	18 4	,, 10 ,,	19 2
1st W E Vowler ..	18 11	,, 3 ,,	19 2

Templer, Bruce and Vowler made a second trial to work off tie with following results :—

	Actual jump. ft. ins.	H'cap. ins.	Total. ft. ins.
1st "C Bruce" ..	18 10	plus 10 equal to	19 8
2nd G Templer ..	17 4½	,, 24 ,,	19 4½
3rd W E Vowler ..	19	,, 3 ,,	19 3

Winners last year were

	Actual jump. ft. ins.	H'cap. ins.	Total. ft. ins.
1st D Robertson ..	18 6	plus 24 equal to	20 6
2nd F C Smith ..	18 9	,, 12 ,,	19 9

H B Kirk of the Agras holds Ceylon's record for this event with 20 feet 8¾ at the Agras in 1902.

220 YARDS.

Time 24 seconds—Nineteen entered for this event, of whom no less than eight scratched.

Eleven started with the following result :—

1st W B Bartlett	plus 25 yards.
2nd S P Bell	,, 25 ,,
3rd T Cantrell	,, 20 ,,

G B de Mowbray was the first to drop out of the running. He was immediately followed by G H Moir and W E Vowler. The rest of the starters got home in a bunch. Bartlett landed himself a winner by a foot from Bell, from whom Cantrell was divided by two feet. Time and winners last year —Time 24 1-5 seconds—1st E R Porteous, scratchr 2nd F J Marshall, plus 5 ; 3rd J Paterson plus 20. ;

CONSOLATION RACE.

Another. an additional event in the form of 120 yards scratch Consolation race was included. Only three started : time 13 4-5 :—1st W H M Davies, 2nd H A L Brown, and 0 G H Baird. Brown, who was left at the start by 2 seconds ran a hard race but could not touch Davies who was home yards ahead of him. Brown was a great performer at last year's D A C C and D M C C Annual Athletic Sports also at the Agras this year where he won the 100 yards event in the very creditable. time of 10 1-4 seconds. He was also first in the quarter mile. The riding accident he met with last September when he dislocated both bones of his right elbow, still gives him trouble. He is bound to do well at the Agras next January.

PRESENTATION OF THE PRIZES.

After the termination of the day's sports Mrs Norman Rowsell gave away the prizes amid oud cheering and much enthusiasm.

THE A. A. A. MEET PRIZES.

Challenge cups for only two events were given away, viz :—Quarter mile and Half-mile as follows :—

Quarter-mile.—Friday's winner E R Porteous. Half-mile.—Friday's winner M Johstone who was re-given the cup which he has held since the 1900 meet. 100 Yards.—Friday's winner E R Porteous, Colonel Savage now holds the Cup which he won in 1900 ; when the same is returned from England, the Committee will forward it to E R Porteous. 120 Yards Hurdles.—Friday's winner W E Vowler. The Cup is at present with L E Dolman who won the event in 1900 ; when the same is received from England the Committee will forward it to W E Vowler. The cups for the High Jump, Long Jump and Putting the Shot will shortly be imported from England, and presented to the respective winners, *viz.*, W E Vowler, A M Cooper, and N G Bonaparte-Wyse.

THE D.M.C.C. PRIZE LIST.

Golf.—1st F C Smith—Amber cigar holder in silver case. Presented by Mr. John Anderson. 2nd R C Grant. Bridge set in handsome Morocco leather case. Quoits.—1st Prizes E. P. mugs. Presented by Mr. R H S Scott. Messrs. A Craib and R C Grant. 2nd Silver Toast Racks. Messrs. H G Moir and H C T Mackay. Football.—Place and Drop-kicking—1st prize presented by Mr W C Lloyd, 1st.—A C Wilson, sugar basin, Doulton ware tea pot and cream jug, and 2nd D Robertson, leather cigar case. Throwing the Cricket Ball :—1st price, E P Cup, presented by Mr P H Papillon, winner : W B Bartlett, and 2nd A M Cooper, photo frame. 100 Yards : 1st prize, Cup, presented by Mr Keith Rollo, winner : E R Porteous, and 2nd A Greig, handsome leather cigar case. High Jump :—1st prize silver Ramikin service presented by Mr Reginald Fenwick, A M Cooper, and 2nd F C Smith and W E Vowler—a tie ; prizes will be purchased and sent them. Putting the Shot :—1st prize presented by Mr Norman Rowsell, Fred Wernham, and 2nd A Greig. Half-Mile :—1st prize silver entree dishes, presented by Mr J H Spedding, winner : Farr, jr., and 2nd, butter dish, W B Bartlett. 120 Yards Hurdles :—1st prize, a silver tea pot, presented by Mr W S T Saunders, winner : S P Bell, and 2nd a silver cream jug. Quarter-Mile :—1st prize, Doulton ware loving cup E P mounted, presented by Mr R Cotesworth, winner : A Greig, and 2nd E R Porteous, handsome English leather tie case. Long Jump.—1st prize, carriage clock, presented by Mr R Huyshe Eliot, winner : C Bruce ; 2nd, G Templer, leather cigarette case silver-mounted. 220 yards.—1st prize, pair silver candle sticks, presented by Mr C L Davis, winner : W B Bartlett ; 2nd, S P Bell, pair salt cellars and spoons in leather case ; Consolation Race,—1st prize, silver mustard box, presented by Mr F L Clements, winner : W H M Davies ; 2nd, H A Brown, date box.

A word of praise must be given to Messrs W S T Saunders, Col A J Farquharson, P H Papillon, R Leonard and Norman Rowsell. The officials for the day, who had difficult work to perform, and did it with exactness and fairness, won the lavish eulogies of the competitors.

No. 21. COLOMBO, June 3rd, 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

CEYLON INDIA RUBBER SALES IN LONDON.

FOR WEEK ENDING 15TH MAY, 1903.

"Historian"—Para Rubber, Ceylon, 1 case sold at 4s 3½d ; ditto 3 cases at 4s 3½d ; ditto 1 sold at 3s 3¾d.
"Lancashire"—Tudugalla, 3 cases sold at 4s 2½d.

Ceylon Produce for week ending 15th May.

CEYLON COFFEE—in good demand. Santos March is 28s and the bulls talk it up ; the bears seem less confident of much lower prices.

CEYLON COCOA—slow ; good to fine sold at 70s to 85s.

SUGAR—slow, quiet.

SILVER—steady ; may hang about these prices or go up a bit.

COTTON.—Tinnivellys dearer. American Cotton excited, but looks toppy.

CEYLON COCONUT OIL—quiet.

CEYLON COCOA.—No public sales, but about 800 bags sold, ordinary to fair 57s to 62s, low 47s to 49s 6d.

COTTON.—From Ceylon and Tuticorin 1,020 bales at sea for Liverpool F G F c i f Tinnevellys 4 11-16. Spot 5 1-16. Overland samples in of Tinnevellys look nice white cotton.

RESULT OF THIS DAY'S COIR SALES
14TH MAY, 1903.

YARN.—745 bales sold, 1,520 bales offered ; 31 tons ballots sold, 43 tons ballots offered ; 59 tons dholls sold, 59 tons dholls offered. The auctions attracted a fair attendance of buyers and the bulk of goods exposed for sale changed hands. Cochins.—Allapat and Anjingo marked no change, soft weaving and mat bales met good competition realising fully last prices. Mat dholls sold slightly in buyers' favour. Hard twisted and roping dholls in demand and sold at improved rates. *Ceylons mostly withdrawn.* Ballots irregular.

FIBRE.—73 bales sold, 73 bales offered. Only common quality offered and sold without change. 74 tons ballots sold, 126 tons ballots offered. All sold at last prices to a small decline.

COIR ROPE.—7 tons coils sold, 8 tons coils offered. Commanded good competition and sold at fully last prices.

YARN.—Fine to extra fine £21 to £26 per ton ; Good £17 10s to £20 per ton ; Medium £14 to £16 15s per ton ; Common £6 15s to £13 15s per ton ; Roping £12 to £14 10s per ton.

FIBRE.—Good to fine, none up ; Common to medium £13 10s per ton ; Ceylon mattress £5 5s to £6 10s per ton.

ROPE.—Coils 2¼, 2¾ £18 ; 2½ £18 10s ; 1¾ £19.

COCHIN YARN.—Bales: G in estate mark, Fine Anjingo 2, £15 15s ; ditto 3, £15 10s ; A & C in estate mark 4 D 2, £16 5s ; C & S in estate mark M 6, £17 ; M H G in estate mark Anjingo SSSS (in red) £16 15s ; ditto SSS ditto, £16 15s. In green C R & Co. PCY £16 5s ; PK in estate mark, weaving C, £19 5s. Dholls : GM G, £13 ; LV 2, £11 ; AV 5, £11 7s 6d ; NR, £11 5s ; PKLRD, £13 10s ; X Black, £14 ; CC. £16 5s.

COCHIN FIBRE.—JE in estate mark SF F * 1, £13, 10s ; ditto F X 3, £13 10s.

CEYLON YARN.—Ballots T S W1, £19 5s ; S 3 S £144 ; T S W2, £16 15s ; ditto W 3, £15,

No. 22. COLOMBO, June 10th, 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

CEYLON PRODUCE FOR WEEK ENDING 22nd May.

BANK RATE—4 per cent tone easier. Ceylon markets are steady.

CEYLON DAMARSLOW—greenish fluted good 43s 6d; Pickings 30s.

CEYLON PEPPER—6¼d spot. White Ceylon Pepper fine 10¾d.

CEYLON COCOA—quiet. Privately sales about 310 bags 53s 6d to 59s. Mixed to red good 64s to 70s.

CEYLON COFFEE—firm; prospects better. Santos March 28s, and at 27s 9d looked on as cheap, bears less confident.

COTTON excited—F G F Ceylon Tinnevellys 5¼d spot. This American crop 11,200,000 lb; next 10½ to 12¾ millions. Weather good. General trade in America now looks on the decline for next 2 to 3 years. Manchester bad—short time about.

CEYLON COCONUT OIL—slow and dullish. £23 c i f, spot £2 16s 0d more.

OBSERVER PRINTING WORKS.

No. 23. COLOMBO, June 17th, 1903. { PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

"Patrician."—Doranakanda, 1 case sold at 4s 4d.

CEYLON PRODUCE FOR WEEK ENDING. 12th June.

The markets keep steady quiet—Coffee, Sugar and Cotton showing more life.

CEYLON CARDAMOMS—bold palish. Ceylon Mysore sold 2/3 to 2/5; bold and medium 1/10; medium 1/3 to 1/6; bold extra browny at 2/4; seeds 1/1 to 1/2.

CEYLON CLOVES—10 cases sold good unpicked 6¾d; dull at 6d.

CEYLON NUTMEGS—118s fair and uneven 9d; 110s defective and wormy 6d.

GOOD CEYLON PEPPER—grey 6¼d; grey 6⅛d.

COFFEE—Santos futures dipped to 24/1½ for July lowest in record. Bears talk of 22/, but after June some life is expected.

COTTON—excited and America seems unable, with all its power, to supply England with raw cotton and 7 11-32d for c. i. f. American Cotton is paid this week. Ceylon Tinnevelly f. g. f. 5 7-16d to 5½d per lb. spot value, against 2¾d lowest record price in 1894-5. Manchester is, of course, paralised, and Indian Cotton is now being sort after again by English Spinners. This rise in Cotton has upset the stock markets of the world.—f. g. f., c. i. f. Tinnevellys 4 13-16d. At sea *nil*.

OBSERVER PRINTING WORKS

No. 26. COLOMBO, July, 8th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

"Persia."—1 MAKM in estate mark, 100 bags out.

CEYLON PRODUCE MARKET REPORT FOR WEEK ENDING 19th June.

Markets quiet. Prices little changed.

BANK RATE—3 per cent. Silver closed 34 5-16th

CEYLON NUTMEGS—66s in shell, 6½d defective and very wormy 4¾d.

CEYLON MACE—dullish, pale and worm 2/—so easier.

CEYLON PEPPER and CEYLON GINGER—might be shipped to profit.

CEYLON COCOA—710 bags sold, native 47/ to 49/ being easier by 1/ ; fair to medium red estates 59/ to 68/ ; very small 48/. Demand poor.

CEYLON F G F TINNEVELLY COTTON—spot 5½d, but c i f 4⅞d. American crop 10¾ to 11½, next 10½ to 13 millions. Manchester full of gloom and short time. Next crop acreage unchanged to 3 per cent up, and Fertilisers used 10 per cent increase. America may get a fat crop as ground wet, but critical months are June to November, so cotton is a rum shrub, and which pea is under the two thimbles, bull and bear, is a poser at the moment.

COFFEE—Santos July 23/9 ; talk is of 22/ to 19/, but New York is hinted as getting hold of it, so bull musie at any day likely. General tone is better. General trade in the Lane is poor for the Brokers and cutting down of office expenses rather fashionable.

CEYLON COCONUT OIL—£25 10s firm ex wharf, and to arrive, sellers difficult to tackle and a nice business done £22 10s c i f, June to October is 5/ more.

SUGAR BEET—September 8/1½ last year ; 6/ tone towards upwardness.

OBSERVER PRINTING WORKS.

No. 27. COLOMBO, July, 15th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

"Shropshire"—Kobo 1, Splits 6 cases sold at 9d.

"Glaucus"—Kobo 3, 1 case sold at 7½d; ditto OO Splits, 2 sold at 9½d; ditto 1, Splits 2 sold at 9d; 4 sold at 8½d; ditto Browns, 2 sold at 8d; Midlands 1, 9 cases out.

"Deucalion"—Elkadua O, 13 cases out; ditto 2, 1 case sold at 8d; ditto B & S, 1 sold at 7½d; Midlands O, 5 sold at 1s 8d; ditto 2, 5 sold at 8d; Gallaheria O, 7 cases out; ditto 2, 2 cases sold 8¼d; ditto Seed, 1 sold at 11d; Yoxford, 2 sold 7½d.

CEYLON PRODUCE FOR WEEK ENDING 26th June.

BANK RATE—3 per cent tone firmer.

Markets quiet, steady, but Cotton, and Coffee dearer—Sugar weaker.

CEYLON MYSORE CARDAMOMS—1s 8d to 2s, so 2d to 3d easier.

CEYLON CINNAMON—good fair quillings, also broken fetched 6d to 7d Wild unsaleable.

CEYLON MACE—good bright 2s to 3d.

CEYLON NUTMEGS—66s 6½d.

GOOD CEYLON PEPPER—9½.

COFFEE—has been firmer Santos, December 26s 3d.

SUGAR BEET—September 7s 11¾d against 6s last year, record low price. The bounty is knocked off end of August and May revive the Clyde Bristol and Madras sugar businesses—and which sorely needed it.

COTTON CEYLON TINNEVELLYS—5 7-16d. c. i. f.—f. g. f. 4⅞d to 5¼d. American crop had reports exaggerated. Bulls talk 7d or August-September and bears 5d to 4d for December-January new Manchester business killed for big Eastern markets. If India would grow cotton with a longer staple, say from West Indian seed which cotton is fetching today 6¼d to 6⅝d per lb it would pay or from Egyptian seed—or from best long stapled American seed—Color for choice like Broach—Oomras Salems, Coimbatore, Tinnivelly. England next year might do with ¼ to ½ a million of bales. Bar Egypt, Africa is of no use for large lots.

CEYLON COCOA—dull, 150 Ceylon fine 79s—248 bags privately 53s to 74. As the sugar bounty is knocked off next September, the next best thing for fair trade would be to ask America to reciprocate free trade and if refused put ¼d per lb on her raw cotton next January and as a Sop for Lancashire tax in India and other parts American manufactured yarns and cloths, &c., this would help India, London and Lancashire trade. Russia taxes, America 2d per lb to help her Asian cotton trade.

P. S.—Coconut Ceylon oil £25 10s; 23s c. i. f. done for August, September and October sellers over this.

No. 28. COLOMBO, July, 22nd 1903. PRICE:—12½ cents each, 8 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs. E. Benham & Co.

"Borneo."—HJ in estate mark, 80 bags out.
No Coffee or Cardamom sales this week.

CEYLON PRODUCE MARKETS.

Mincing Lane, London, E.C., 5 p.m.,
3rd July, 1903.

Most markets quiet bar Shellac Cotton and Sugar.

BANK RATE—3 per cent. Some talk of 2 per cent later on.

CEYLON COFFEE—steady. Santos 24/4½ September buyers; 23/9 July. Low record prices. Bulls think it safe, and bears talk of 22/.

CEYLON PEPPER—dearer.

CEYLON RUBBER—in great demand: 4s 4d we quote for fine.

SUGAR—harder. Beet—December 8/7½ looks apurchase.

COCOA, CEYLON—about 290 bags medium 63/6 to 66/; privately at 60/ to 67/6.

CEYLON COCONUT OIL—slightly off. Spot £25 10s, Afloat £22 15.

COTTON F G F TINNIVELLY—4 31-32d c i f. Spot value 5⅜ per lb. From Ceylon and Tuticorin to Liverpool nil.

CEYLON CLEAN SCRAP RUBBER—3/3 to 3/8.

CEYLON PLUMBAGO LUMP—27/ to 51/. Chips 16/ to 26; Dust 3s to 12s 6d. Some selling, but only privately at firm rates.

CEYLON COFFEE—91s to 123s. Smalls to fine middling 59s to 101s. Native 40s to 52s. Prices uneven.

COTTON—Manchester is bad, old crop looks 10¾ millions next 11¼, some say 10½ to 12½ millions. Weather last 14 days better. India must "wake" up as England, etc. could do with one to 2 million more bales per annum. Egyptian Cotton 8½ to 11d. Our West Indian Cotton 6½d per lb. buyers. Cotton may be grown in the Transvaal and Orange River States. Cotton is the greatest collateral security in the world with stocks and shares, etc., in New York, London, etc., so the ideas of Bombay and of the British Parliament of stopping this great Industry is absurd.

OBSERVER PRINTING WORKS.

No. 29. COLOMBO, July, 29th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

"Shinano Maru."—B in estate mark, 2 cases out.

"Jason."—Deyanella 1, 7 cases out.

CEYLON PRODUCE FOR WEEK ENDING 10th July.

Most markets are quiet except Shellac, Cotton, Coffee and Sugar.

CEYLON MYSORE CARDAMOMS—bold pale at 1s 8d.

CEYLON COCOA—looks a bit brighter on the Continental and London markets.

SUGAR BEET—December 8s 7½d. May see 9s later on.

COFFEE CEYLON—firmer. Santos, July 23s 9d. Mayo 26s 6d. Bears talk 22s. Bulls 29s. We recommend buying down.

COTTON AMERICAN—dropped heavily. Old crop looks 11 millions, next 11 to 11¼, some say 10½ to 12½. Required next time 11⅞ to 12¼ crop. Egyptian and Indian crops look good. At 5 1-16th to 4⅞ new crop American would seem safe until 10th September, 1904, also all Indian crops at ¼d to ½d under today's c i f prices until July, 1904. Manchester is busier on this nice drop.

CEYLON TEA—is firm, but good sorts are badly required this end. Trade looks brighter generally and with a settlement of a fair trade reciprocal basis on anything made in England a general revival may occur.

The hay harvest is splendid and of deep value to the country.

CEYLON COCONUT OIL—c i f easier. Spot slow £22 10s c i f sellers.

We recommend shipments to England of Ceylon Coffee, Nutmegs, Ginger, Mace and Pepper.

P. P. S.—F g f, c i f a/s Tinnevellys 4 13-16ths. Spots 5¼. At sea 2,500 bales. Tinnevellys f g f at 4½. C i f should be a safe price to buy down from until August, 1904.

OBSERVER PRINTING WORKS.

No. 30. COLOMBO, August, 5th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs. E. Benham & Co.

Mincing Lane markets quiet, but Cotton is jumping about and Sugar hardening.

COFFEE SANTOS—futures keeping low 23/9 July.

CEYLON BLACK PEPPER—is dearer.

CEYLON CINNAMON—20 bags out.

CEYLON COCONUT OIL—quiet. Spot £25. Passage £22 and August, September and October £22 5 0.

As to Cotton:—America must produce larger Cotton crops if a lower basis of prices is to be established—G F Tinnivellys 5 5-16.

We recommend exports of good sorts of Ceylon Tea, Coffee, Ginger, Nutmegs, Pepper, Cotton and Sugar.

CEYLON COCOA—350 bags fair to medium red 59/ to 65/; smalls 53/ and 43 to 48/; ordinary native 47/6.

OBSERVER PRINTING WORKS.

No. 31. COLOMBO, August, 12th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

No Coffee and Plumbago Sales this week.

MINCING LANE CEYLON PRODUCE.

London, 24th July. 1903.

Most markets keep quiet bar Cotton, Cloves, Pepper, which are firmer.

CARDAMOMS CEYLON—steady. Ceylon-Mysore pale brown bold at 2s 5d.

CEYLON COIR Sales.—Bales and coils all sold steady rates,

COFFEE—Santos July 23/9; May 26/4½. Market is in a rut, but people watching the time when to buy.

CEYLON COCOA—1,058 bags Ceylon up, and about 190 bags sold fine bold 83/6 to 84/. Common 41s.

SUGAR—In September and October may be dearer.

CEYLON COCONUT OIL—dull. Spot £25, c i f £22 10s passage and A,'6 5/ less.

BANK RATE—3 per cent tone uncertain.

COTTON LIVERPOOL—continues to be drained and good sorts scarce. Manchester slow, but at 5 1-16 to ⅞d for January-February American futures business might take a solid turn. Crop accounts mixed this crop 11 millions, next 10¾ to 12 millions. A drought in August-September would do harm, and a frost too. F g f Spot Tinnevellys 5 3-16 to ⅛d. Lowest record price was about 2⅜d per lb.

Exports of good sorts of Tea, Coffee, Sugar, Cocoa, Cotton, Mace, Nutmegs, Pepper. Mace can be safely and confidently recommended for the coming autumn demand. Also large parcels of Ceylon Rubber-Biscuits close 4/4½ and Scraps at 3/6 to 3/7 tone strong.

OBSERVER PRINTING WORKS.

No. 32. COLOMBO, August, 19th 1903. PRICE:—12½ cents each, 8 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs. E. Benham & Co.

CEYLON COCOA SALES IN LONDON.

MINCHING LANE July, 31st.

"Patroclus."—Dynevor A, 8 bags sold at 55s; C, 3 sold at 51s; D, 7 sold at 49s; E, 2 sold at 38s.

"Kanagawa Maru."—Dangan Estate No. 1, 8 bags sold at 58s 6d; 3 sold at 56s; No. 2, 5 sold at 54s; No. 1D, 3 sold at 51s; No. 2D, 2 sold at 50s; Broken, 2 sold at 43s.

"Bohemia."—J O in estate mark P, 10 bags out.

"Kanagawa Maru."—1 M in estate mark, 151 bags out at 48s.

"Wakasa Maru."—1 M in estate mark, 127 bags out.

"Jason."—1 M in estate mark, 66 bags out.

"Yeoman."—Wiharagama 1, 26 bags sold at 66s; ditto T, 13 sold at 53s.

"Glaucus."—Wiharagama 1, 10 bags out.

"Calchas."—A Polwatte, 22 bags sold at 69s; 1 sold at 47s.

No public sales of Coffee or Cardamom this week.

MINCING LANE, LONDON, E.C., JULY 31ST, 1903—5 P.M.

The Mincing Lane Markets generally are quiet except Sugar, Shellac.

CEYLON CLOVES.—2 boxes small fair picked sold at 6¾d.

CEYLON NUTMEGS.—85's at 8½d.

CEYLON CARDAMOMS.—Mysore Ceylon 8i at 2s 6d. Seeds 1s to 1s 2d.

CEYLON COFFEE.—70s to 122s. Smalls 58s 6d to 63s. Sales none offered. Santos, August 23s 9d; March 25s 10½d. The market seems in a rut, but it don't decline.

CEYLON PLUMBAGO—steady. Some business privately, but not by auction. Prices: 20s to 35s lump, chips 8s 6d to 15s 6d and dust 3s 6d to 8s.

CEYLON COCOA—firmer. Supply poor, demand improving, prices 56s to 88s 6d. Native 44s to 51s.

CEYLON RUBBER—3s to 4s 4½d. Supply poor.

WEST INDIAN COTTON: from Sea Island Seed is selling at 13½d per lb. So India should try this style of Cotton-growing. American Cotton crop now looks only 10,800,000 bales and next 10½ to 11½ millions, but 11¾ millions is required for 1903-4!! Manchester more enquiry and at 5 1-16 to 4 5/32d for January-February (quoted now 5¼d per lb.) a big business is likely. We recommend shipments to this side of Tinnivelly Cotton at 4¾ to 4 5/8, f g f, c i f and Salem Cotton, also Coffee, Plumbago, Rubber, Sugar, Nutmegs, Pepper, Mace, Cocoa, all of good qualities.

No. 33. COLOMBO, August, 26th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

"Yeoman."—NJDS Plantation PB, in estate mark 4 bags out at 39s.

No Cocoa, Rubber and Plumbago Sales this week.

MINCING LANE CEYLON PRODUCE.

7th August, 1903.

Most markets are quiet with a holiday feeling on. Coffee looks brighter at last. Cotton active and feverish. Sugar dearer, closing quiet. Rubber little offering, demand strong, and great scarcity.

COTTON.—Fgt Tinnevelly from Tuticorin 4 13-16. Lancashire is at last waking up to this class and Broach at 4 9/16d to 4 7/16d investment buying would set in. American crop old 10,790,000, next 10¾ to 13,000,000. Manchester rather better demand, but the old American crop prices kill business there.

COFFEE—Santos March is 26/1½.

SUGAR BEET—December 8/11, rather a selling upward price.

CEYLON COCONUT OIL—firmer. Spot £25. On water £22 5s and at September to November £22 to £22 5/.

CEYLON PLUMBAGO—no sales; tone firm.

We recommend shipments of the best Ceylon Rubber. All Ceylon: Coffee, Sugar, Cocoa, Plumbago, Nutmegs, Pepper and Mace.

BANK RATE—3 per cent and easy tone thereat. General Trade in America is declining as we predicted some time back.

P.S.—Cotton closed easier. Some say next American crop cannot be large as the seed was bad, and owing to bolt weevils and scarcity of labour, etc.

No. 34. COLOMBO, Septembr, 2nd 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs. E. Benham & Co.

"Clan Sinclair,"—Dolahena, 1 box sold at 4s 6d.

No public Plumbago sales this week.

MINCING LANE PRODUCE MARKETS.

21st August.

BANK RATE.—3 per cent tone easy. Some talk of 2 per cent and 1 per cent.

COFFEE SANTOS—July 27/6 and September 24/10½ buyers. Tone quiet.

SUGAR BEET—April, May and June 9s 3d lookin highest in price.

COTTON—January-February American futures in Liverpool 5 5-16d per lb. Manchester poor, but if Jan.-February dropped to 5 1-16 l to 4⅞d a large business seems certain. Next consumption may reach 11¼ to 12 millions. Crop looks large, but warm weather is required It looks 15 to 30 days late.

CEYLON RUBBER—sold at 4s 6d; best quality tone strong. Business generally all over the world seems tending downwards.

We recommend shipments of Coffee, Rubber, Mace, Nutmegs, Cloves, and Ginger; "f g f" Tinnevellys at 4½d and downwards should be bought.

CEYLON COCONUT OIL—stronger. Spot £25, on water £23 5s and August to November £22 17s 6d.

OBSERVER PRINTING WORKS

No. 36. COLOMBO, September 16th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

No Plumbago, Rubber and Cardamom Sales this week.

OTHER PRODUCE.

Mincing Lane, London, E.C., Aug. 28.

The Produce Markets are steady and firmer: Cotton, Shellac, White Pepper, Ceylon Tea, Rubber and Cocoa are especially active.

BANK RATE—3 per cent.

CEYLON COFFEE—Sales about 60 casks, but only a few sold, size boldish 101s to 114s; medium 90s; very small 40s to 50s; peaberry 68s to 88s per cwt. Tone spot good and dearer. Costa Rica crop accounts worse. Santos Coffee futures September 25s 1½d; July 28d. Bears talk 21d. Bulls buy down. It looks a buy down.

CEYLON COCOA—offerings poor, demand at, and some nice prices paid. Privately sales 68s up to about 91s 6d. Fine and good sorts Plantation.

CEYLON RUBBER—strong buyers of fine 4s 6d.

CEYLON PLUMBAGO—firm, but business privately done. Lump 30s to 36s; dust 4s to 8s; chips 9s to 15s.

SENNA—dearer.

SUGAR.—The Continental Bounty knocked off by the British Government is 1s 4½d, so this under 9s. The price today of October-December makes the market look a buy down.

COTTON—Manchester firmer especially for good sorts. Liverpool looks short of cotton to a serious extent until 25th October next. This American crop looks 10,950,000 and the next year may be 11-12,000,000 bs. Bool weevils eat up about 200-300,000 yearly. Fully good fair Tinnevelly 4 13-16. At sea from Ceylon 2,400 bs.

P.S.—Mr. Chamberlain will not tax Imports of American Cotton this year, but he may tax pianos, boots, gloves and calicoes imported from countries who don' take our goods free.

No. 37. COLOMBO, September, 23rd 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

"Oanfa."—JHV in estate mark, 1 case at 4s 8d and 1 at 4s 8d being Lots 42 to 43.

OTHER PRODUCE.

Mincing Lane, E.C., 4th Sept.

The markets are steady.

BANK RATE—1 per cent up—was an eye opener.

SUGAR—has a firm front now; bounty duty finally squashed: so India may "wake up."

CARDAMOMS—sold easier rates.

CEYLON RUBBER—4s 8½d for one lot is good news.

COTTON—American Crop finished was about 10¾ millions; next looks 11¼ to 12¼. Manchester will be active at October-November futures prices in Liverpool, but if January-February gets to 5.10 to 4⅞d activity will reign, and on that basis Tinnevelly Cotton, Madras and Bombay and Calcutta should be bought down—f. g. f. old Tinnevellys 4 27-32 and new about 4¾—at 4⅝ to 4¼ a buy.

COFFEE—is slow, but prices are low. Bears talk Santos 22/ futures, but bulls in time perhaps a terrible long time should win. We advise then to ship everything that is good and cheap in wise moments of course. Business looks broadening. The crops look better, and it certainly looks as if business would shortly hum and not before it is wanted too.

COCONUT OIL.—Ceylon firm, spot £25, passage £23, and August to October at £22 5s. Cochin, spot £33, August to October shipment £25 5s. Mauritius spot £24 to £24 10s.

RESULT OF THIS DAY'S COIR SALES
3RD SEPT., 1903.

YARN.—1,350 bales sold; 2,214 bales offered; 30 tons ballots sold, 38 tons ballots offered; 60 tons dholls sold, 65 tons dholls offered; 6 tons bundles sold, 13 tons bundles offered. The large supply offered at auction attracted a fair attendance of buyers and with a good demand the bulk was disposed of at irregular prices, but, on the whole, with a firm tendency. Cochin.—Anjengo sold at full prices. Fine soft weaving in demand; all sold dearer. Medium and mat without change. Roping Bales and dholls sold 10s lower. Ceylon Bales partly sold at full prices, all qualities in demand marking a rise of 10s.

FIBRE.—145 bales offered. Firmly held and mostly sold subject. 28 bales sold, 344 bales offered. 105 tons ballots sold, 213 tons ballots offered. Large quantity offered brought a further reduction in price of 5s to 10s per ton.

COIR ROPE.—20 tons coils sold, 20 tons coils offered. In good demand and sold at full rates.

YARN.—Fine to extra fine £20⅜10s to £23 5s per ton Good £17 10s to £20 per ton; Medium £13 to £17 5s per ton; Common £5 10s to £12 15s per ton; Roping £12 10s to £14 10s per ton.

FIBRE.—Good to fine and Common to Medium none sold; Ceylon mattress £4 to £5 15s per ton.

ROPE.—Coils P K R 2, £16 10s; 1½ £19; 1, £18 15s,

COCHIN YARN.—Bales: B V in estate mark, SSSSSS £13 7s 6d; ditto SSSSS £13 10s; M in estate mark Real Anjengo 1, £18 10s; ditto 2, £17 5s; V B R H £13; P C, in estate mark Alapuz 3, £15; P C in estate mark, C, £19, ditto 2, £14 5s; A & C in estate mark £20 10; Dholls: C C £17 10s; X X F £16 10s; C V S, £10 10s; In green H R D £13.

CEYLON YARN.—Bales: B in estate mark, C, £23 5s; ditto D £21 15s; ditto H £17 10s; ditto M H £17 5s; ditto O £16 10s; ditto C & S in estate mark, S 3, £21 10s; ditto S 3 C, £19 15s; Ballots: A £19 10s; Dholls: one string £16 10s.

OBSERVER PRINTING WORKS.

No. 38. COLOMBO, October, 7th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

OTHER PRODUCE.

London, 11th Sept., 5 p.m.

Ceylon Produce closes firm. We recommend shipments of nice sorts of Rubber, Mace, Nutmegs, Coffee Sugar, Cocoa, Pepper and Ginger.

COTTON—had a severe drop as Indian supply is greater than the bulls expected. Next crop American looks 11,400,000 to 11,800,000 depends on early or late frost and weather. General trade in England worse owing to wet season, and so Manchester not so good as it looked lately. F g f Tinnevellys 4 11-16 and at 4 9-16 to 4¾, a large business might be done. Sugar looks cheap, and Coffee looks healthier.

CEYLON COFFEE SALES IN LONDON.

MINCING LANE, Sept. 18th.

"Circassia."—Mausagalla A, 1 cask sold at 100s ditto B, 2 casks and 1 barrel out; ditto C, 1 tierce sold at 49s; ditto PB, 1 barrel sold at 86s; ditto T, 1 barrel sold at 35s.

* Only the additional sales to what we gave on Monday in our Cocoa letter are here given.

"Alcinous."—Craig O, 1 cask and 2 tierces sold at 96s 6d; ditto 1, 3 casks and 1 barrel sold at 80s; ditto 2, 1 cask and 1 tierce sold at 57s; ditto P, 1 barrel out; ditto T, 1 barrel sold at 34s; 1 bag sold at 78s.

CEYLON CARDMOMS SALES IN LONDON.

"Alcinous."—Yellangowry, 1 case sold at 1s 8d; 1 sold at 1s 4d; 3 sold at 1s 3d; 10 sold at 1s; 5 sold at 8½d.

"Antenor."—Wattakelly No. 1, 7 cases out; ditto N 4 and 5, 2 cases sold at 8½d; ditto Seed, 1 bag sold at 10d.

"Batavia III."—WW in estate mark, 1 case sold at 7d.

"Peleus."—Gallantenne Cardamoms Mysore O, 3 cases sold at 1s 8d; ditto 1, 10 sold at 1s; ditto 2, 5 sold at 9d; ditto 3, 8 sold at 8d.

"Glenfarg."—DPD, SC in esate mark, 100 barrels out.

"Bingo Maru."—D B & Co., 574 in estate mark, 93 barrels out.

CEYLON PRODUCE IN LONDON.

Sept. 18th, 1903.—The markets keep generally firm.

BANK RATE—4 per cent.

MYSORE CEYLON CARDAMOMS—easier 1s 6d to 2s; sold bold to pale and medium 1s 4d; bold at 1s 2d; brown 11d to 1s 1d; smalls 8d to 10½d.

CEYLON COCOA—dearer and tendency upwards and feeling brighter—sales about 1,300 bags good at 76s; fair at 65s; native 48s to 50s.

COFFEE—Santos futures December 27s 6d. This market is about 2s 6d rise from low record rates and tone firm.

SUGAR—April, May and June Beet 9s 3d and looks a buy down. Colombo Root wormy fetching 8s, but good demand pending. Senna good demand; bold good 7d.

CEYLON COCONUT OIL.—Spot £25 10s; £23 5s on water and c i f the same.

COTTON—next American crop looks now about 11½ to 12 millions and large supply from Egypt and India and consumption looks bad for the future. So January-February futures Liverpool now 5d, 29/100 look rather a sell up and when 5d 10 to 4 ¾d. Manchester, now bad, may look up again. The average date of frost is 25th October next. F g f Ceylon Tinnevellys August-September 4, 23-32 c i f done and sellers. Spot is 5 3-16d. Madras good Northerns 4 7-16d c i f—and sellers.

Recommend shipments of Cocoa, Spices, Coffee, Sugar, Ginger, Mace, Nutmegs, Pepper, Rubber, Plumbago and Cotton at ¼d decline. Can get money advances on loans, Estates, etc.

OBSERVER PRINTING WORKS.

No. 39. COLOMBO, October, 14th 1903. PRICE :—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

"City of Manchester"—DEC F in estate mark Mahaberia Ceylon O, 7 bags out; F ditto 1, 17 bags sold at 65s 6d; G ditto No. 2, 16 bags sold at 57s.

"Kamakura Maru,"—FR in estate mark, 39 bags out.

RESULT OF THIS DAY'S COIR SALES, 24TH SEPT.

YARN.—620 bales sold, 1,041 bales offered; 32 tons ballots sold, 32 tons ballots offered; 40 tons dholls sold, 40 tons dholls offered; 11 tons bundles sold, 15 tons bundles offered. Although only a moderate quantity of Yarn was offered, it attracted a fair attendance of buyers and bulk was sold. Cochins.—Allapat and Anjingo sold at fully previous rates. Soft weaving and mat irregular and partly sold at prices marking no change. Roping—Bales flat and mostly withdrawn. Dholls in good demand. Ceylon.—Bales realised fair prices for quality. Ballots and Dholls in good request.

FIBRE.—37 bales sold, 130 bales offered. Cochin good extremely scarce. Nothing offered. No. 3 quality sold at an advance of £3 per ton. 110 tons ballots sold, 126 tons ballots offered. Sold without change.

COIR ROPE.—3 tons coils sold, 3 tons coils offered. Sold prices considerably in sellers' favour.

YARN.—Fine to extra fine £21 to £28 per ton; Good £17 5s to £20 5s per ton; Medium £13 10s to £17 per ton; Common £6 to £13 5s per ton; Roping £8 to £13 12s 6d per ton.

FIBRE.—Good to fine none up; Common to medium No. 3 £20 per ton; Ceylon mattress £4 12s 6d to £6 per ton.

ROPE.—Coils GJ FF 1¾ £20 per ton.

COCHIN YARN.—Bales: PK in estate mark, Next Anjingo SSSSS, £20 5s; ditto SSSS, £19 10s; ditto SSS. £17 15s; A & C in estate mark 4 D 2, £18 10s; BV in estate mark SSSSSS, £17 5s; RG in estate mark AAAAA Alapat, £26; ditto 1 AAAA Alapat, £26 15s. Dholls: X, £13 12s 6d; GM, £12; ditto G, £10 15s; ditto S, £12 15s; ditto X, £11 5s.

COCHIN FIBRE.—JE SF in estate mark FFFF 1, £20.

CEYLON YARN.—Bales: C & S in estate mark SS C, £16 10s; ditto A, £21 10s; B in estate mark A, £25; ditto H, £17 10s; ditto MH, £17 10s; ditto O, £16 10s; ditto MO, £16 10s. Ballots: C Black, £23; D ditto, £21; H ditto, £18; O ditto, £16 10s; S ditto, £14 15s; TS W 1, £19 15s; ditto W 2, £18 5s.

CEYLON AND OTHER PRODUCE.

London, E.C., 25th Sept., 1903.

The markets generally are active and some sorts dearer. Bank Rate 4 per cent. Cotton easier. Coffee firm. Rise in Silver has done some good generally.

CEYLON CARDAMOMS.—7d to 2s 4d; seeds 11d to 1s 2d, tone good sorts firm.

CEYLON CINCHONA BARK—52 bags out, 2½d to 7½d values.

CEYLON CINNAMON—4d to 1s 8d; chips 1¾d to 9¾d.

CEYLON COFFEE—irregular in price. Bold worth 90s to fine 122s to 123s. Peas 41s to 87s.

CEYLON COCOA—active 47s to 92s range.

CEYLON WEED (ORCHELLA)—flat, nothing stirring, prices range 9s 6d to 13s.

CEYLON RUBBER—strong tone. 4s 7d to 4s 9½d; Scrap 3s to 3s 6d per lb.

COLOMBO ROOT—strong, 16 sold at 14s 6d per cwt.

CEYLON PLUMBAGO—also slow, but offerings poor, 20s to 36s; dust 4s 6d to 7s 6d; chips 9s 6d to 15s 6d.

CEYLON SENNA—active, higher range 1⅞ to 8¾.

CEYLON TINNEVELLY COTTON—f g f 4 11-16d c i f October-November Suez. Spot 5¼.

CEYLON WOOL—strong to 5s advance with American firms freely operating, range prices Indian 4½d per lb to 10¾d per lb.

CEYLON OIL COCONUT—firm active. Spot £25 10s to £25 12s 6d; c i f £23 10s buyers, and August, September, October and November same.

AMERICAN COTTON CROP—now looks about 11,500,000 bales. Consumption declining. Indian and Egyptian crops look large. However if Spot American gets to 5¼ to 4¾d, Manchester will be active. Bears talk of 4¾d down to 4d.

SUGAR BEET—April, May and June 9/1¼—a buy down is general view. Coffee Santos futures have risen 2s 6d to 3s, and it is now a question of supply and demand. American firms at the lowest bullish are still that way.

We recommend shipments of Pepper, Nutmegs, Mace, good sorts of Tea, Coffee, Sugar and Rubber. RUBBER has actually been sold at 5s privately and no sellers under. Buyers are anxious for all Ceylon can ship. Indian Butter is here 50s per cwt demand good. Trade generally here is improving, but the Stock Exchange people are very sick—so bad that some say they are drinking water instead of Tea.—The opinion in Clubs, etc., about Mr Chamberlain is that the Liberals will come in at next Election and, one or two years after, Mr. Chamberlain on his Fiscal Policy—which is to shut our doors to those Countries who shut their doors to England and they will then not be long before re opening them. These measures will be brought forward most likely every March with the Budget.

OBSERVER PRINTING WORKS.

TEA, COFFEE, CINCHONA, COCOA, AND CARDAMOM SALES.

No. 40. COLOMBO, October, 21st 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

CEYLON PRODUCE OUTLOOK.

London, 2nd Oct., 1903.

The markets keep steady firm. Silver 27⅝. Bank Rate 4 per cent. Consols 88 9-16. Lord Rothschild recommends buying Consols when about 87½, so the *Chronicle* reports.

Ceylon Coconut Oil—firm, active. Spot £25. Ceylon Tea is very firm and likely to be so long as exporters are wisely manipulated.

Cotton (raw).—The corner and phenomenal rise in September. American turned out highly satisfactorily for the New York bull party. A rise of £240 for 100 bales in a few hours caught belated European and American shorts terribly. Some settled privately. One European firm, we hear, cabled over his best thanks for being let out so easily. The American crop looks 10¾ to 11½ millions. The Indian crop is being more freely used again in Lancashire and Continent. F g f Ceylon Tinnevellys are 4 5/8 c i f October-November Suez. Manchester looks better. Bears talk of 4⅞ to 4d for American.

Coffee—Santos is 29s, and lots of people expect higher rates.

Sugar—April, May and June Beet 9s 1d is a buy down.

Ceylon Cardamoms—better and dearer.

Ceylon Rubber—sold 4s 9½d biscuits and 3s 6d scrap and privately scrap 3s 9d tone strong.

We recommend shipments of all Ceylon Spices—Rubber, Coffee, Best Teas, Plumbago and Sugar.

City men are mostly in favour of Mr Chamberlain's ideas (and Mr Balfour's) of closing the doors to those countries who boycot the system of free trade reciprocal and otherwise.

CEYLON COFFEE SALES IN LONDON.

Mincing Lane, Oct. 9th.

"Yorkshire."—Gonamotava F, 1 barrel sold at 100s; ditto 1, 1 cask and 1 tierce out at 101; ditto 2, 5 casks out at 90s; 4 casks and 1 barrel out; ditto S, 3 casks sold at 50s; ditto PB, 1 cask sold at 100s; GMT T in estate mark, 1 cask and 1 tierce sold at 36s; GMT in estate mark, 2 barrels out; Gonamotava, 1 bag sold at 56s.

CEYLON COCOA SALES IN LONDON.

"Japan."—1 M in estate mark, 75 bags out.

"Stentor."—DD in estate mark, 86 bags out.

"Kawachi Maru."—Palli London 1, 116 bags out.

"Yorkshire."—Kumaradola A, 20 bags sold at 74s 6d; 26 sold at 74s; B, 11 sold at 68s; T, 3 sold at 57s 6d.

"Sanuki Maru."—Meegama A, 17 bags out; 1, 5 bags sold at 59s; B, 3 sold at 54s; C, 1 sold at 60s; B1, 1 sold at 35s.

"Tactician."—F O&C in estate mark Mahaberia Ceylon O, 20 bags sold at 70s 6d; C ditto O, 4 sold at 72s; F ditto 1, 42 sold at 66s 6d; C ditto 1, 3 sold at 65s 6d; ditto No. 2, 20 sold at 61s; 31 sold at 62s.

No Rubber, Plumbago and Cardamom sales this week.

PRODUCE REVIEW.

London, 9th Oct., 1903.

The markets keep steady firm.—Quinine, Cloves and Sugar.

Ceylon Cocoa—firm and people here think prices will keep up, 400 bags sold, good 72s to 76s 6d; smalls 56s to 66s 6d.

Ceylon Mace—fair Ceylons at 2s 1d.

Ceylon Nutmegs—in shell 70s 8d; broken shrivel at 6d.

Coffee—hardening, Coffee *re* Santos futures March 29s 6d, some expect another 1s rise. In America they think it is done enough and in 1905 some talk of 50s.

Ceylon Croton Seeds—14s 6d to 23s.

Ceylon Cinchona Bark—4d to 1s 1d. Ceylon Orchella-weed, nothing doing. Senna fine 8d, good 6d.

Cotton—January-February Liverpool futures are 4·96d. Some expect 4½d to 4d, but a frost would stir up prices. Manchester again looks brighter for the big Eastern markets. American crop looks 10¾ to 11½ according to frost or no frost, but trade and stocks there look a bit fishy. Tinnevelly Cotton closes 4 9-16 per lb f g f, c i f.

Sugar Beet—firmer April-June 9/0½ tone looks poor at this price.

Ceylon Rubber—privately keeps strong 4/9½ buyers, Biscuits and Scraps 3s 9d.

Mr. Chamberlain's Policy.—Almost every city man is in favour of it: and it should have been done years ago. Old mother England is at last "waking up," and the demand for Indian Tea (with a low duty) will be something tremendous. Ceylon Tea and shares are advancing and the outlook closes decidedly strong.

We recommend shipments of Ceylon Spices, Tea, Coffee, Cocoa, Rubber and Bark.

OBSERVER PRINTING WORKS.

No. 42. COLOMBO, November, 4th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

RESULT OF THIS DAY'S COIR SALES, 15TH OCT.

YARN.—806 bales sold, 1,070 bales offered; 27 tons ballots sold, 37 tons ballots offered; 80 tons dholls sold, 96 tons dholls offered; 3 tons bundles sold, 19 tons bundles offered. A good attendance of buyers was attracted to auctions at which only a moderate quantity of all descriptions was offered, prices on the whole being well maintained. Cochins.—Anjingo fine parcels fetched full prices. Allapat without change, soft weaving and mat bulk sold at previous rates. Roping bales quiet, Dholls in demand. Mat good competition without change. Coconada sold at lower rates. Ceylon bales sold at last prices. Ballots higher.

FIBRE.—100 bales sold, 100 bales offered. Extremely scarce and previous high prices were more than maintained. 50 bales sold, 50 bales offered. Without material change. 74 tons ballots sold, 74 tons ballots offered. Rather higher.

COIR ROPE.—Coils none offered.

YARN.—Fine to extra fine £21 to £25 per ton; Good £17½ to £20 5s per ton; Medium £13 15s to £17 per ton; Common £4 10s to £13 10s per ton; Roping £9 to £14 10s per ton.

FIBRE.—Good to fine £23 to £24 per ton; Ceylon mattress £4 15s to £5 17s 6d per ton.

ROPE.—Coils none up.

COCHIN YARN.—Bales: GW in estate mark Anjingo C, £18 5s; ditto D, £17 15s; SO in estate mark TF, £4 10s; G W & C, £5 5s; VB 3, £19. Dholls: PK 2, £14 10s; PK 3, £12; PK S, £13 15s; PK 1, £14; L, £9; PC S grades, £12.

COCHIN FIBRE.—JE in estate mark SF FFFF 1, £23.

CEYLON YARN.—Bales: C & S in estate mark SSO, £17; ditto T 3, £15 10s; B in estate mark B, £20 5s; ditto MD, £20 5s. Ballots: R Black, £25; B ditto, £24; RF O, £18; ditto 1, £17; R1, £21; R2, £19 15s; R3, £19; R4, £17 10s.

COILS.—C & S in estate mark SSC, £16 10s to £17.

CEYLON PRODUCE MARKETS.

(From Our Correspondent)

London, 16th Oct., 1903.

The markets have been slow, but steady.

CEYLON MYSORE CARDAMOMS—sold at 2s 4d for bold.

SENNA—new Tinnevellys sold irregular 1¾ to 4½d, pods fetching 2d and 1½d.

CEYLON NUTMEGS—3 cases sold at 6½d (shelly).

COFFEE—Santos is 30s 3d July, and looks high for time being.

SUGAR BEET—April to June 9s 1d, tone rather bullish.

COTTON—The American crop now looks about 11¼ millions. Consumption may be only 10,850,000. Manchester is rather easier owing to politics and Wall Street, and general trade slowish. January-February American futures are 5·20d and looks a sell up price, but frost may play a great game. Some say the crop is 10½ and some 11,600,000. Old Crop Ceylon f g f c i f Tinnevelly would fetch 4⅝ per lb. and 5d on Spot.

CEYLON COCOA—firm; ordinary to fine is 61s to 84s. No auctions, but best opinions are that prices will advance; prices today 60s to 89s.

CEYLON CINNAMON—firsts 9d to 1s 9d.

CEYLON YARN—superior is £26 10s.

CEYLON RUBBER—only 28 lb. sold, good clean thin biscuits at 4s 9d, tone quieter: Scraps are 1s less.

BEST ORCHELLA WEED—would fetch 22s.

PLUMBAGO—dust best 8s; chips best 25s; lump best 40s to 41s.

CEYLON EBONY WOOD—firm, best £15 per ton. Sapan Ceylon best £11 to £13.

We recommend shipments of Ceylon Cocoa, best Rubber, Tea, Spices and Plumbago.

OBSERVER PRINTING WORKS.

No. 43. COLOMBO, November, 11th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

CEYLON PRODUCE REVIEW.

London, 5 p.m., 23rd Oct., 1903.

The markets have been firm and consumption keeps brisk for Coffee, Cotton, Bark, Shellac, Mace, Nutmegs, Cinchona Bark, Pepper, and Colombo Root. Silver firm and may see about 29s/. Bank Rate steady at 4 per cent.

CEYLON MACE—99s; darky 1s 3d.

RUBBER—Any you can ship will sell well. Biscuits 4s 9½d and Scraps 3s 6d to 3s 10d.

CEYLON PLUMBAGO—firm 3s up to 50s.

CEYLON TORTOISE-SHELL—4s to 25s.

COLOMBO ROOT—fetches 9s to 16s.

CEYLON COCOA—*slow*, 41s to 75s paid.

COFFEE—futures 1s up, and we look on even this rise as now a safe buying price, so shipments of all Ceylon Coffee and Tea should pay handsomely.

SUGAR—is uncertain.

SHELLAC—is up from 32s lowest pivot to 220s and 260s. Highest known (second orange) is general talk.

COTTON—is a rum shrub. The American Crop now looks 10¾ to 11¼ millions. Manchester is irregular; prices are 1d over last year. If January-February Liverpool futures touch 5·8d to 4 15-16d, prices now would look safe. Trade in America is still declining, and the Japan news not bright, but King Frost will appear in another month, so music there may be put off until April, for which: thanks. Mr. Chamberlain continues to sweep the country: since he knocked off the Continental bounties, the result to our West Indian possessions has been of immense value. Trade is looking up there; also confidence has been restored. Yarns are being shipped from Bombay to Manchester, which is all right, but from Foreign countries, who boycott England's Trading it is not business in 1903.

CEYLON COFFEE—sold well, bold good 116s to 117s; Peas 86s to 112s per cwt. Ceylon f g f Tinnevelly 4 13-16 c i f. Spot 4 15-16 f g f. Samples from Central Africa show very poor quality and uncleaned.

OBSERVER PRINTING WORKS.

No. 44. COLOMBO, November, 18th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

CEYLON PRODUCE.

London, 30th Oct., 1903.

The markets are steady and show some advance in Pepper, Shellac, Cotton, Coffee, Cloves, Senna, Wax, and Chillies. Bank Rate firm at 4 per cent.

SILVER—27 13-16 and may see 29d per oz.

COFFEE—May Santos 31s. Prices considered safe and a buy down.

SUGAR—April, May and June Beet 9s 0½d is best left alone, or a sell up.

COTTON.—Manchester has signs of returning vigor. A large business may occur if raw Cotton keeps down. A rise would injure trade. January-February Americans in Liverpool are 5.46d and at 5½d prices are tappy. At 5¼ to 5d prices would be safer. Crop estimates 10.200 to 11¼ millions. Some say 10,800,000 and some 11 millions. November is the month on which a lot hangs—F g f Tinnevellys c i f 4⅞d, spot 3-16 more. From Ceylon at sea 7,506 cwts. and 2,183 to the Continent, *i.e.*, of Tinnivelly sort.

CEYLON RUBBER is 2½d dearer per lb—10 cases sold at 4/8½d Ceylon biscuits, demand strong. Supply poor.

Mr. Chamberlain continues to please 90 per cent of England, and his views are much admired and will make business hum in England and India and our Colonies. His remark that Germany gives Steamship Companies £80,000 per annum to dump down German goods in India, Africa, etc., has given great umbrage to Englishmen and must be stopped, like the Sugar bounties were by him. Our West Indian possessions have much improved since the Sugar bounties were killed and confidence is restored there and people know where they are now. His views that Madagascar and Cubar are closed to English Trade has caused his views to sweep the country. The Prince of Wales said England must wake up. So the sooner Mr. Chamberlain is returned the better.

OBSERVER PRINTING WORKS.

TEA, COFFEE, CINCHONA, COCOA, AND CARDAMOM SALES.

No. 45. COLOMBO, November, 25th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

"Nestor."—Sirigalla 1, 3 bags sold at 65s; 3 sold at 51s; ditto T, 4 sold at 57s.

COIR SALES 5TH NOVEMBER, 1903.

YARN.—550 bales sold, 1,096 bales offered; 17 tons ballots sold, 20 tons ballots offered; 52 tons dholls sold, 52 tons dholls offered; 5 ton bundles offered. Although only a moderate quantity of yarn was offered a good attendance of buyers was attracted and the bulk of what was offered was sold. Cochins.—Anjingo sold well at full rates. Weaving.—Fine and medium qualities brought last prices. Mat all sold without change. Roping.—Bales only part sold. Dholls in good demand and realised full prices. Ceylon.—Bales and ballots were in demand and all sold at a rise of between 20s and 30s.

FIBRE.—40 bales sold, 175 bales offered. Consisted mostly of salt fibre new arrivals, met a slow demand and part sold at lower prices. 70 tons ballots sold, 93 tons ballots offered. Combings all sold subject. Ordinary irregular good quality sold well. Common quiet and mostly withdrawn tendency easier.

COIR ROPE.—6 ton coils sold, 6 ton coils offered. Sold commanded full prices.

YARN.—Fine to extra fine £20 10s to £22 10s per ton; Good £17 5s to £20 10s per ton; Medium £14 to £17 per ton; Common £12 to £13 15s per ton; Roping £5 10s to £13 per ton.

FIBRE.—Good to fine £23 per ton; Common to medium £20 per ton; Ceylon mattress good £6 per ton; Combings £10 5s to £10 10s por ton.

ROPE.—Coils 1½", 1¾", £18 15s; 2¼, £17.

COCHIN YARN.—Bales: M in estate mark Anjingo C, £16; P in estate mark 2, £19 15s; GJ in estate mark SSSSS A, £16; ditto SSSS A, £15 5s; ditto SSS A, £12 15s; GM in estate mark C, £18 10s; PK in estate mark R4, £12 15s; ditto C in black, £18 5s. Dholls: PK X, £12 5s; PK XX, £12 5s; PK 3, £12; PK 4, £12; PK R D, £13; 11, £15 10s; X £15 5s.

COCHIN FIBRE.—PK in estate mark F1, £23; M in estate mark FFFF, £23; ditto FFF, £21; ditto F2, £20.

CEYLON YARN.—Bales: B in estate mark MD, £22. Ballots: O ESA, £20 10s; No. 1 ditto, £19; No. 2 ditto, £18 5s; No. 3 ditto, £17 5s; No. 3 NBS, £17 5s; No. 4 NES, £16 5s; CD on tab, £17 15s.

OUR WEEKLY PRODUCE REVIEW.

London, 6th Nov., 1903

The Lane markets for Cotton, Coffee, Sugar, Wax, Shellac, and Pepper have been active in a way.

CEYLON COCOA—quiet, 116 bags sold fair to red good 60s to 69s 6d, boldy 76s and little 57s to 61s 6d. Cocoa Butter 11¾ to 12⅛. Indian Butter has been sold yesterday at 6d per lb. Low quality and the outlook at present is far from gay. It may suit Africa and Aden, but not here, although Siberian is selling here about 8d to 9d, and low French thereat.

INDIAN WOOL—2⅞d to 8¾d per lb., but tone dull. Unwashed ½d to 4d per lb.

COTTON—Manchester is busier. China and India buying freely. American crop estimates 10,300,000 Bls. to 11¼ millions. 10,700 to 11 millions or 11¼ is about the mark. Consumption 10,890,000 about. Indian Cotton is being more used in Lancashire, but difficult to get spinners to go on again with it. However it will have some effect like last year.

CEYLON—Damar-pipey greenish good sold at 41s 6d and ordinary at 35s.

CEYLON TEA—active and prospects brilliant if duty reduced.

INDIAN SHELLAC—is being used for Telephone work, etc., and prices are 220s. Lowest known 34s. Highest 260s. Germany is trying to make a Shellac of her own, but the stuff looks bad, so perhaps Shellac will not suffer like Indigo did. Trade in America is uncertain and had in Texas and when millionaires have to sleep on the yachts, things must be queer.

TINNEVELLY COTTON—is 5 11-16d f g f c i f.

SANTOS COFFEE—July 32/1½.

We recommend shipments of Coffee, Tea, Rubber, Sugar, Cotton and Spices. No sales of Rubber, but demand strong.

P.S.—Mr Chamberlain continues busy. The Conservative evening papers think the Liberals will get in at the next election, and Mr. Chamberlain afterwards. It depends on the working classes to a great extent, but commercial men by 90 per cent favour his ideas.

OBSERVER PRINTING WORKS.

No. 46. COLOMBO, December, 2nd 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

CEYLON PRODUCE AND COMMERCIAL OUTLOOK.

London, 5 p.m., 13th Nov., 1903.

The markets for produce keep firm. Trade good. Cotton is active and Shellac, Cloves. Consols 97⅞. Silver is 26⅞d and expected to hang about current rates with 2⅜d for a top pivot. Bank Rate 4 per cent and firm tone.

SANTOS COFFEE—here futures July 31/9—buy in flat market and ship. Sugar Beet, April-June 8/10½—recommend shipping and buying down.

COTTON—crop American estimates are from Miss Giles, a new statistical Star 10,300,000 to 11,400.000. 10¾ to 11 millions looks about it. Manchester is firm, but if Cotton declined, say, January-February now 5·90d to 5·40d business would hum.

CEYLON TEA—firm, and we have enquiries to buy small sound tea businesses if any knocking about.

CEYLON ROOT—wormy fair 22 bags sold at 15s.

CEYLON NUTMEGS—rough wormy 90s to 1s 2d.

INDIAN BUTTER—firmer, price 6d to 7d per lb.

CEYLON RUBBER—quiet firm. No sales in buyers of Ceylon at 4s 16d. Public Sales—Continental trade is good. American trade upset over Steel Shares.

PEARLS.—The marriage of the Duke of Roxburghe in New York is considered—from the presents given—a good thing for the Ceylon pearl divers now and for later on.

CEYLON PLUMBAGO—3s to 50s, market slow, firm.

CEYLON ORCHELLA WEED—7s to 15s.

CEYLON TINNEVELLY COTTON—F g f c i f old 5 3-16d; new March-April 5 5-16d; Spot value 5 9-16d; at sea to Continent 3,800 bales, to England 300 bales.

Mr. CHAMBERLAIN—continues to sweep the country and there are great signs of a tremendous boom over it. Opinion on the matter on the Corn Exchange (old) showed 99 per cent in favour of it and on the New Exchange 98 per cent. Even the working classes are turning rapidly in favour of his policy. The deplorable way British Trade has been attended to is far more costly than the late Boer War. That caused a deep ugly wound, but by March next that is expected to be healed—for which, thanks.

OBSERVER PRINTING WORKS.

TEA, COFFEE, CINCHONA, COCOA, AND CARDAMOM SALES.

No. 47. COLOMBO, December, 9th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

"Kamakura Maru."—1 MAK in estate mark, 36 bags out; 1 bag sold at 36s.

"Hakata Maru."—1 MM in estate mark, 114 bags out

"Awa Maru."—1 M in estate mark, 31 bags out.

CEYLON PRODUCE AND COMMERCIAL OUTLOOK.

London, 20th Nov., 1903.

The markets generally have a quieter tone, and ring Shellac is quieter. Sugar steady. Coffee active. Anniseed Oil higher. Cocoa firmer. Ceylon Coir Yarn firm at £12 to £23. Colombo Root sold at 15s wormy, Cinchona Bark firmer, Cardamoms flatter.

CEYLON COFFEE—fetches full prices, Bold 109s to 111s; Medium 106s; Small 47s to 50s; Peas 75s and buyers, Middling 75s and buyers.

CEYLON RUBBER—3s 2d to 4s 8½d; Ceylon sold at 4s 8d to 4s 8½d; fine scrap 3s 3d; dark 4s 3d to 4s 6¼; but today prices are lower, best is about 4s 6d value.

CEYLON COCONUT OIL—very scarce spot £24 12s 6d to £25 2s 6d. £22 17s 6d is c i f and no sellers left.

BANK RATE—4 per cent and feeling easier.

COTTON—American crop estimates are in today from 10 to 11¼. We think 11 to 11,200,000 or 10¾ to 11¼ is about the outlook. Manchester is upset by dear prices and the chief Eastern markets are quieter. January-February futures 5·80d. At 5·60 to 5·40 buyers would appear and sellers about 5·90 and upwards. Bulls talk of 6d and 7d. Bears, that one day a serious drop is not unlikely.

We recommend shipments of Ceylon Tea, Sugar, Cocoa, Coffee, Spices, Rubber and Drugs. Shellac looks a sell up.

COTTON—is high and dangerous. It looks as if no weight of Cotton can be grown to compete against American except in India. So grow good white sorts, and import fresh seed yearly. From sorts Egyptian Sea Island, Texas, Brazil and West Indies.

Mr. Chamberlain's policy continues strong, and we hear America favour his policy, and Germans in London.

SILVER—closed 27¼ and expect to hang about this price.

No. 48. COLOMBO, December, 16th 1903. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs. E. Benham & Co.

"Alcinous."—WDS R Mysore, 14 cases out.

CEYLON AND INDIAN PRODUCE AND COMMERCIAL REVIEW.

London, 5 p.m., 27th Nov., 1903.

Most markets are firm and quiet—Cotton, Coffee. Bank Rate 4 per cent and expected to keep thereat for balance of 1903.

SHELLAC—looks tired and a sale—Dec.-Feb. c i f 212s; highest price touched 270s, and lowest (of course, years ago) 43s.

ROOT—Colombo is selling at 14s, smallest to wormy.

COTTON—American crop estimates range fom 10 to 11½ millions—but 11 to 11½ seems about the size. Manchester looks as if prices will upset her. January-February futures today 5 97-100d. Should market drop to 5·70 to 5·50 for January-February delivery, Manchester would be active.

COFFEE—keeps firm and looks going higher: September Santos 33s.

SILVER—closed 26½d—tone quiet.

Mr. Chamberlain's policy continues from strength to strength. The Radical Liberal party might get in for a few months, but if Mr. Chamberlain reduces the duty on Tea, Coffee, Cocoa, Beer, Tobacco, etc., and taxes those countries refusing Free Trade basis the chances of the Liberal party will be very minute. The demand for Indian Tea and estates continues brisk and we look forward for a steady rise during the next two years.

P. S.—We recommend shipments of Ceylon Coffee, Pepper, Nutmegs, Cloves and Mace, and very likely to show you all good profits.

CEYLON CINNAMON SALES IN LONDON.

MINCING LANE, Nov. 30th.

"Hitachi Maru."—WJE, 46 bags out.

"Wakasa Maru."—Benveula No. 1, 10 bags out; ditto Nibs, 1 bag sold at 41s.

CEYLON AND INDIAN PRODUCE AND COMMERCIAL OUTLOOK.

London, 5 p.m., 4th Dec., 1903.

The Lane markets have been active and Cotton.

COFFEE—excited. Bank Rate 4 per cent. Coffee Santos July delivery 35/1½. Some still think it all right for 38/ to 40/ buy in flat markets.

SUGAR—April-June Beet 8/9¼ is a buy down.

SHELLAC—looks dangerous to bull.

COTTON—American Estimates 9,960,000 to 11,100,000. Manchester is upset by the gamble; but at a good fall would be active for Indian business.

CINNAMON CEYLON—sold at irregular prices.

Trade on the Continent continues fair—and in America there are signs of better times in the Steel Trust Companies. Coffee and Cotton is booming in New York. The Stock Markets in London have turned the corner, and prospects for 1904 seem brighter.

Mr Chamberlain's policy will be a good thing for British Trade; so 1904 looks extremely interesting for all commercial men in London. Even the Foreigners in London approve of something been done!

OBSERVER PRINTING WORKS.

TEA, COFFEE, CINCHONA, COCOA, AND CARDAMOM SALES.

No. 1. COLOMBO, January, 5th 1904. PRICE :—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

"Orient."—No. 1 Biscuits, 2 cases out at 4s 6½d; No. 2 ditto, 2 cases out.

CEYLON AND INDIAN PRODUCE AND COMMERCIAL OUTLOOK.

London, 5 p.m., 11th Dec., 1903

The Produce markets are mostly quiet—except Coffee, Cotton and Cardamoms.

SHELLAC—is reacting.

SILVER—25¼. Bank Rate 4 per cent. Consols 88¾. CEYLON RUBBER sold today at high rates and the demand is strong and great.

SHELLAC—is easier and may see a drop of 40/ to 60/ from the top rates of March delivery.

COFFEE—September Santos 27/1½ sellers. Most good Judges think it still safe and 40/ likely.

COTTON TINNEVELLY—F g f c i f 5 11 32d old and new crop. Indian Cotton should have a good time in 1904. Cotton: American Crop Estimates by Bureau of under 10 millions caused a great advance, best Judges think 10½ to 11 millions more like it. The Bulls talk of 7d to 9d per lb. and Bears of under 6 i again. Manchester is upset by this gamble, but if Cotton dropped about 3s 8d renewed buying for India, etc., would likely again occur. Meantime trade in Cotton Goods in America is bad. The Boll Weevil is supposed by the Bureau to have destroyed half-a-million of bales, but half that seems more probable. We hear sellers of c i f American Cotton have defaulted to the tune of 40,000 to 50,000 bales which, no doubt, helped the terrific advance lately.

SUGAR—looks a buy down, April-June Beet is 8s 8½d equal to about 7s 1½d, now the Bounty is killed—a moderate price after 57/ per cwt. years ago.

CEYLON COCOA.—No sales, privately trade quiet.

We recommend shipments of all spices: Sugar, Coffee, Rubber and Pearls.

We find trade in the West Indies is gradually and slowly improving, thanks to Mr. Chamberlain's bullish operations over the Continental Bounties successfully passed last September. Also Trade is better in Bristol and Scotland. The wound has been deep, but it is healing steadily anent Sugar Industries. The London Stock Exchange is improving. The Brokers in Shellac, Coffee and Cotton, must have had a fair innings. Sugar has disappointed the Brokers for activity as it has been rather a 'dead horse' affair.

The prospects for 1904 seem fairly satisfactory and of deep value to commercial men.

CEYLON COCOA SALES IN LONDON.

MINCHING LANE Dec. 11th.

"Asia."—OBEC in estate mark Kondesalle Ceylon 1, 28 bags sold at 60s.
"Inaba Maru."—Grove A, 14 bags sold at 68s; ditto C, 3 sold at 61s 6d; ditto A, 3 sold at 55s.
"Hitachi Maru."—1 MAK in estate mark Estate Cocoa, 230 bags out; AA in estate mark, 60 bags sold at 49s 6d.
"Denbighshire."—No mark, 1 bag sold at 36s.
"Orotava."—Bandarapola 1, 17 bags sold at 60s; ditto T, 2 sold at 37s 6d.
"Shropshire."—Bandarapola 1, 11 bags sold at 60s; 2 sold at 53s 6d; ditto 2, 1 sold at 55s; T, 2 sold at 37s 6d.
"Hitachi Maru."—Gangwarily No. 1, 19 bags sold at 72s; No. 2, 5 sold at 60s 6d.
"Lancashire."—Kumaradola A, 26 bags out.

NEXT AUCTIONS 21ST JANUARY, 1904.

RESULT OF THIS DAY'S COIR SALES 17TH DCEMBER, 1903.

YARN.—203 bales sold, 1 248 bales offered; 10 tons ballots sold, 15 tons ballots offered; 84 tons dholls sold, 86 tons dholls offered; 1 ton bundles sold, 10 tons bundles offered. At these the last auctions of the year only a very moderate quantity of Ceylon and Cochin yarns was offered attracting an ordinary attendance of buyers. The auctions ruled dull and less than half the bales changed hands, but dholls of all descriptions were in request. Anjingo and soft weaving bales mostly withdrawn part sold without change. Weaving and mat dholls all sold at last rates. Roping bales only partly sold. Dholls all sold without change. Ceylon bales all sold. Ballots in demand realising full p ices.

FIBRE.—5 bales sold, 163 bales offered. The full prices asked have retarded sales and only 5 bales were disposed of, balance being firmly held. 157 bales offered. No demand. 45 tons ballots sold, 100 tons ballots offered. Partly sold at prices in sellers' favour.

COIR ROPE.—15 tons coils sold, 15 tons coils offered. In demand and sold at full prices without change.

YARN.—Fine to extra fine £20 5s to £23 15s per ton; Good £17 to £20 per ton; Medium £14 5s to £16 10s per ton; Common £5 15s to £14 per ton; Roping £6 10s to £14 per ton.

FIBRE.—Good to fine £19 15s per ton; Ceylon mattress £4 15s to £5 5s per ton.

ROPE.—Coils 2¼, £16 5s; 1¼, £17 10s; 2¼, £17 15s.

COCHIN YARN.—Bales: RG in estate mark 1A Aratoray, £17 5s; ditto 2B Aratoray, £17 5s; ditto 3C Aratoray, £17 5s; 3C EB in estate mark B, £20; ML in estate mark Anjingo SSSSS, £21 15s. Dholls: OM O, £10 10s; X, £15 5s; LPS, £11 17s 6d; MH, £6 10s.

COCHIN FIBRE.—GMJ in estate mark F, £19 15s.

CEYLON YARN.—Bales: CSK in estate mark XX, £23 15s. Ballots: CB CE, £16 10s; 1 NBS, £19 10s; 2 ditto, £19 10s, 3 ditto, £17 10s; 4 ditto, £17 10s; TS W1, £19 5s; TS W2, £18 15s; TS W3, £17 15s; D Black, £21 5s.

CEYLON AND INDIAN PRODUCE AND WEEKLY COMMERCIAL OUTLOOK.

London, 18th Dec., 1903.

The produce markets have been quiet, steady, except Coffee and Cotton. Sugar, which are displaying activity. Bank Rate 4 per cent. Silver 25⅝d. Consols 88 9 16.

SHELLAC—quiet and looks a sale as shipments soon coming on.

SUGAR—April-June Beet at 8/9 looks a purchase.

COTTON CROP—looks 10½ to 11 millions. Some first-class firms expect 10½. The market has been dancing about excitedly like cats on hot plates. The curse of America, Arnold said, was the American funny man; and they have certainly succeeded in driving back some English firms to their old homes. The games they play beat everything. Manchester is upset thereby and talks of short time. F g f c i f April-May Tinnivelly Cotton is 5 7-16d and spot price 6 1-16d. The Egyptian Crop looks a fair crop. Indian Crop is rather less than expected, but high prices should help Indian Trade. The successful American Bulls talk of 7½d whilst the Bears long to see 6.25d again.

CEYLON CARDAMOMS—better and good sorts 2d dearer.

COLOMBO ROOT—dull.

CEYLON SHELLS—selling dearer at 24s 6d; thin 7s per lb.

CEYLON COFFEE—dearer, medium 93s; smalls 58s.

PLUMBAGO—nothing stirring same with Orchella Weed.

CEYLON BUTTER—worth 5d to 7d per lb.

CEYLON COFFEE—closes strong.

RUBBER—no sales.

SANTOS COFFEE—December, 1904, is 36s 3d done. Coffee seems safe and going higher. As to

COTTON GROWN IN SOUTH AFRICA—An American is coming over to show them how to grow Cotton, but we fail to see any hope of large lots being sent here for the next 16 years. India is one's only hope for large lines.

Mr. Chamberlain continues very busy and active and his policy has gained greatly from late elections. Carpets made in England and sent to America are taxed 75 per cent—a most unjust, unholy, unrighteous tax. The Sugar Bounties having lately been knocked off has caused about 17 new Sugar Refineries to be opened in England, for which much thanks—for his promotion and great protection of British Trade.

Old Moore, in his prediction for January, 1904, says:—We may learn news from India which will cause considerable consternation amongst holders of Indian Rails.

No. 2. COLOMBO, January, 13th 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs. Gordon & Wilson.

MINICNG LANE, CEYLON AND INDIAN PRODUCE MARKETS AND BRITISH COMMERCIAL OUTLOOK.

6 p.m., 8th Jan., 1904.

BANK RATE—4 per cent tone firm.

GOLD—77s 10d per oz.

SILVER—is talked of as a bull operation.

THE PRODUCE MARKETS—have, in some cases, been active—Cotton, Coffee, Shellac and Cloves.

CEYLON NUTMEGS—104 s at 1/. Defects at 4¾d.

CEYLON COCONUT OIL—£25 15s steady ; afloat £23 15s c i f and buyers, sellers, merchants 2s 6d more.

COTTON—American Crop Estimates range from 10½ to 11¾. Figures look showy, 10,600,000 to 11,010,000. Bulls of Middling American Uplands talk of 8½d and they have been successful of talking of 7½d. The Bears, what few are left, talk of 1½d per lb. decline sooner or later. This high price should help Indian Cotton Sellers immensely and they can again ship to London 200,000 bales and to Liverpool 300,000 bales where, as in olden days, profits may again be seen. Good Cotton in Liverpool will be scarce until the end of September. Lancashire Trade is bad and short time on as they have not bought Cotton when offered cheap. The Continent bought largely and have done well, and better than American mills too.

COFFEE—Santos September futures 38/1½ after 39/ a case of buy on declines--May at best was 38/6.

CEYLON COCOA—steady, 1,493 bags up and 500 sold 61/ to 73/. Natives 49 to 50/.

SUGAR—buy on declines.

BOARD OF TRADE—returns are satisfactory owing to the coming Fiscal Policy talk and probability. It is to be hoped it will soon pass.

OBSERVER PRINTING WORKS.

No. 5. COLOMBO, February, 3rd 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

"Peleus."—North Matale Ceylon Cocoa C2, 12 bags out.

"Workman."—ABC, 3 bags sold at 56s 6d.

CEYLON RUBBER SALES IN LONNOD.

There has been sent much more during the last year. Very nice thin sheet from Para seed sold well, also Scrap Negrohead sold readily. Cultivation should be encouraged as we can easily consume what can be produced from Ceylon.

CEYLON RUBBER—is 3s to 4s 6½d as regards prices tone firm.

CEYLON AND INDIAN PRODUCE AND WEEKLY COMMERCIAL DIARY.

London, 15th Jan., 1904, 5 p.m.

THE PRODUCE MARKETS are generally quiet except Cotton, Coffee, Turmeric, Cocoa which are dearer. Bank rate firm at 4 per cent. Silver firm at 27 5-16 and may see 29d to 30d per oz.

COFFEE.—May Santos Futures 37s per cwt. and the talk of the bears is 30s, and bulls 45s. We advise buying on all declines.

SUGAR.—Beet April-June is 8s 4½d. The figures are getting bullish and strongly advise buying. The Bounties and Cartel we find amounts to 2s 6d, so sugar is in a way below the lowest, which was 5s 10½d. to 6s—highest has been 57s in 1873.

COCOA.—Ceylon Native sorts sell well, but Estate lots poorly.

COTTON.—American Crop estimates are 10,400 to 11,250, several at 10,730 and we have one at only 9½ millions. The Bulls, who have made money in England and Madras, talk of 8 to 8½ and the Bears of 6d; we would rather sell March-April delivery at today's price 7·26d than buy. The Indian Crop looks smaller which is a good thing in a way. West Indian long staples are offering about 1s per lb, so we quote 10d to 1s 2d per lb. for Indian long-stapled Cotton whenever it can be grown. Manila Cotton seedy is 2d per lb. F G F Tinnivelly April-May new 5 21-32d doing, Spot value 6s 5-8d, at Sea from Ceylon &c 900 bales.

CEYLON COCONUT OIL—firm £25 10s, January to April £24 2s 6d selling and sellers at 5s.

CEYLON PLUMBAGO.—Nothing doing, but recommend shipments as supplies here poor, Prices here 4s to 35s 6d

CEYLON NUTMEGS—1s for 104s.

CEYLON COFFEE.—Sales in 1904 are so far nil, prices 40s to 122s 6d per cwt.

OBSERVER PRINTING WORKS.

No. 6. COLOMBO, February, 10th 1904. PRICE:—12½ cents each, 8 copies 50 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

LONDON SALES OF CEYLON PRODUCE.

MINCING LANE, Jan. 21st.

Fair supplies at today's auctions mostly sold with good competition at full to rather dearer rates for the better grades, but small sizes and pickings

were rather easier. Seeds were barely steady. The offerings totalled 467 packages, of which 395 sold.

MYSORE.—441 cases offered and 378 sold.

CEYLON AND INDIAN PRODUCE AND COMMERCIAL WEEKLY DIARY.

London, 6 p.m., Jan. 22nd, 1904.

Most markets are quiet bar Cotton, Coffee, Pepper, Cardamoms and Coir Yarns. Bank Rate firm at 4 per cent. Silver 25 13-16d. Consols 88¼.

COLOMBO ROOT—14s 9d sold—dull, washy.

SHELLAC—easier and looks like going for 160/—one day.

PEPPER—we recommend shipments and of Cloves, good sorts.

SUGAR—April-June Beet 8/1½—knock off 2s 6d for Bounties and Cartels about 5s 7d and you have an article that is below the lowest known, viz: 5s 10½d, so advise purchasers freely on all flat markets—London Madras merchants here complain of the Indian Government cancelling the Sugar duty without proper notice.

COFFEE SANTOS—March 38/3. September 40/6. Bulls talk 45s up to 70s. Bears talk of 30s—advise strongly buying, and on all declines.

COTTON.—The American Crop Estimates are down and are from 9½ to 10¼ or 10½ millions. Bulls talk of 8½ to 10d. Bears of 6½d—for Liverpool futures March-April delivery. Manchester is going short time also Bombay mills, New England mills, and some Continental mills. Spot Americans today touched 8d per lb, f g f c i f April-May Tinnivellys 5 15-16 sellers.

CEYLON—Bales Coir firmer for fine—medium unchanged. Ceylon mattress selling at £5 to £5 15s.

CEYLON COCOA—recommend shipments here stead Native Ceylon selling at 53/. Cloves better.

CEYLON INDIA RUBBER—4s 1d sold. February-March hard fetching 4s 1d. March-April softish 4s 0⅜d.

Mr Chamberlain had a splendid reception in the City this week. We still think his policy might be improved by reducing the duty on Beer, Tobacco, and making the Tea Duty 3d or even 2d per lb. He complains of the German and American Tariffs.

The talk of War seems over—some say it came chiefly from Fleet Street. Anyhow Russia would have America, China, England, Japan and India against her—rather a strong consolidated lot to tackle now-a-days.

The weather has turned wintry and the gulls are flying over London Bridge seeking food from man.

No. 8. COLOMBO, February, 24th 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

"Hitachi Maru."—MAK in estate mark, London, 135 bags out.

"Oruba."—Palli London 1, 194 bags out.

"Yorkshire."—Palli London T, 149 bags out; ditto 2, 14 bags sold at 54s; ditto T, 4 sold at 53s 6d.

"Sanuki Maru."—Palli London F, 70 bags out.

CEYLON AND INDIAN PRODUCE AND WEEKLY DIARY.

London, 6 p.m., Jan., 29th 1904.

The Produce markets are generally dull and easier bar Coffee, Cotton. Bank Rate 4 per cent. Silver 25¾. Consols 87⅞.

CEYLON TEA SHARES—are firm here and we are told prospects are good for the future of the market.

CEYLON PLUMBAGO.—Spot and arrival keep quiet and nothing really stirring.

NUTMEGS—106s Ceylon.

SHELLAC—May delivery 188s and may see 161s.

ORCHELLA WEED—should be sent off for sale here, fair worth 11s 6d to 13s 6d per cwt.

NUX—offerings poor value 8s 7d at 8s 10d to 9s 1d good stuff; mixed and rough 10d.

CINNAMON—dull, no buyers about.

IMPERIAL COTTON—King Cotton most excited. The Bulls talk of 9d and 10d for middling American and the Bears expect to see one day a sudden 1½d drop perhaps after 16th February to 16th March, new crop planting late and drought reported. Estimates of the crop are now 9⅝s to 10¼d millions: F G F c i f May-July Tinnivelly Cotton 6¼d. Spot value 7½. Good Madras Westerns and Northerns would fetch here 6 1-16d or 5 9-16 c i f from Ceylon at sea 3,200 bales.

COFFEE—Santos September futures 41s 6d and people here expect it to go over 50s and a good thing for Ceylon Coffee.

CEYLON COCOA—2,895 bags up, 905 about sold fine and choice 78s to 90s small and medium.

RICE—strong, Japan buying, and war talk here dropped at moment.

Mr. Chamberlain's policy has improved this week. At the Great Eastern Railway Company's meeting the Chairman reported it advisable that the Fiscal Policy should be taken up. About 12 to 13 millions are reported on the verge of hunger, a nice exposure of Free Trade. British trade should be defended against the foreigner who seeks to destroy it. Land in East Anglia is reported requiring attention. In Mincing Lane from Nos. 21 to 27 there are notices from *five houses running that the ground floor* offices are to let. Opposite to No. 21, however,

A NEW COFFEE AND TEA CAFE

has been successfully opened and includes a Free Library and Directories, Papers, Magazines and Writing Tables. The books total 585. No. 564 is about *Ceylon*. "Two Happy Years" by C T G Cumming—a most useful book for city men.

CEYLON COCOA SALES IN LONDON.

MINCING LANE Jan. 5th.

"Formosa."—Coodoogalla, 68 bags sold at 65s; 8 sold at 58s; 2 sold at 55s; Old Haloya, 4 bags sold at 55s 6d; 253 bags out; Kepitigalla 5 bags sold at 57s; 36 sold at 55s; 25 sold at 58s 6d; 1 sold at 51s; Alloowiharie Ceylon Cocoa A, 148 bags out.

"Clan McNeil."—Katugastota, 107 bags out.

"Warwickshire."—Coodoogalla, 20 bags out; Kepitigalla, 61 bags sold at 64s 6d; 9 sold at 64s.

"Antenor."—Goonambil, 144 bags out; Strathisla Ceylon Cocoa A, 24 bags out.

"Zaanstroom."—Old Haloya, 151 bags out.

"Antenor."—Meegama A, 110 bags out; ditto 1, 9 bags sold at 54s 6d; B, 5 sold at 53s 6d; B 1, 2 sold at 26s.

"Zstroom."—A, 101 bags out; C, 32 bags sold at 59s

"Somali."—Strathisla Ceylon Cocoa A, 7 bags sold at 73s; ditto B, 22 bags out; ditto C, 7 bags sold at 56s; ditto D, 1 sold at 56s; Alloowiharie Ceylon Cocoa A, 88 bags sold at 73s.

"Formosa."—Alloowiharie Ceylon Cocoa A, 2 bags sold at 55s 6d; Glenalpin A, 17 bags out; 4 bags sold at 55s 6d; ditto B, 9 sold at 41s 6d; 2 sold at 37s 6d; Laxahena, 56 bags out; 1 bag sold at 51s.

"Warwickshire."—A High Walton, 33 bags out; B ditto, 1 bag sold at 44s.

"Hyson."—F MAK in estate mark, 110 bags sold at 51s.

"Dalmatia."—1 KK in estate mark, 143 bags sold at 51s 6d; 1 sold at 44s; E MAK in estate mark, 105 bags sold at 51s.

CEYLON CARDAMONS SALES IN LONDON.

Denbighshire."—Duckwari E Splits, 6 cases sold at 9d

"Warwickshire."—Dehigolla Cardamoms No. 1 B. & S, 4 cases out at 1s 2d.

"Orizaba."—Kobo 1, 6 cases sold at 1s 2d.

"Staffordshire."—Upper Haloya AA, 6 cases out,

"Antenor."—Karagahatenne Mysore A, 3 cases out at 1s 6d.

"Hyson."—Lauderdale, 2 cases sold at 1s 4d; 5 sold at 1s 2d; 6 sold at 8½d; 1 sold at 6d; 3 sold at 1s.

"Formosa."—Forest Hill O, 7 cases out; ditto 1, 2 cases sold at 1s 10d; ditto 2, 8 sold at 1s 3d; ditto Seed, 3 sold at 11d.

"Antenor."—Gonakelle, 5 cases sold; Kobo OO, 4 sold at 2s 6d; ditto 1, 17 sold at 1s 3d; ditto Seed, 2 sold at 11½d.

"Kanagawa Maru."—Kobo 1, 7 cases sold at 11d.

"Sado Maru."—Winchfield Park A, 3 cases sold at 1s 5d; 2 sold at 1s 6d; 1 sold at 1s 2d; A 1, 2 sold at 9d.

"Orotava."—Dromoland OB, 1 case sold at 2s 5d.

"Yeoman."—Elkadua O, 5 cases sold at 1s 7d; ditto 1, 4 sold at 11d; 3 sold at 9½d; ditto 2, 1 sold at 6½d ditto B & S, 1 sold at 6d; ditto Seed, 1 sold at 9d.

"Antenor."—Dangkande, 1 bag out.

"Cheshire."—A Kabaragalla, 4 cases sold at 2s; 5 sold at 2s 2d; B ditto, 2 sold at 1s 3d; 4 sold at 1s 2d; C ditto, 5 sold at 9½d; D ditto, 1 sold at 6d; ditto Seeds, 1 case out at 1s.

CEYLON AND INDIAN PRODUCE REPORT,

FOR WEEK ENDING 5TH FEB. 1904.

The Produce Markets bar COFFEE, COTTON, SHELLAC, and CLOVES are dull. SILVER is 25⅝ and looks a purchase or of calls three months off. BANK RATE 4 per cent. Consols 8 75/8 closing. COLOMBO ROOT: market dull. QUININE slow at 11d. RUBBER strong.

INDIAN MAIZE—17s 6d to 18s c i f and selling thereat.

SHELLAC—May 186s, we look for 162s.

COTTON—The King's Speech—to grow more Cotton in all our possessions—is much admired: for which thanks: but where one million can be grown is a poser. Certainly not for 19 years time! Some say the West Indies could: but the natives won't work there. The staple and price is too good. What is wanted for choice is 1/2,000,000 bales of Cotton like America Texas Cotton. If India could grow a million bales of *'fine' Broach*, and Tinnevelly 'f g f to Good'—it might help to relieve Europe. American crop estimates range from 9½ to 10¾ millions and the figures tonight oddly enough look like 10,700,000 bales. July-August futures touched 8.99d, and close 7.39/100d. The Bulls talk of 8½ to 1/ per lb. and the Bears think the 'bubble is burst'"; some talk of it as not a 'white man's market.'—Manchester is bad and traders working 4 days a week. F G F a/m c i f Tinnevelly 6 3/8d to 5/16.

CLOVES—recommend shipments.

COFFEE.—Santos today is 38/6, would rather sell than buy, 41s 6d was highest pivot for May delivery. East India 56s to 68s

SUGAR—April-June Beet 8s 1d. The Cartels and Bounties total about 2s to 5s off for certain Sugar, so think it a buy down still.

CEYLON NUT OIL—firm at £26. C i f easier March-May £24 10s.

CEYLON NATIVE COCOA—Strong, rest dull.

The Brokers in the Lane over Coffee, Shellac and Cotton have been active, but the chief people to scoop it up are in America, N w York, New Orleans, etc. The Stock Brokers are grumbling about trade; if war occurred, some think business there would be bad for 5 years! The *Daily Mail* today thinks tea-drinking the cause of cancer and not fish-meat. The Jews, however, are very free from it.

CEYLON TOFFEE—is being sold at a confectioner's shop. It has a very peculiar look about it: 3 ounces 1d or ½ lb. 2½d and of course worthy of a trial from Ceylon Toffee eaters.

Mr. Chamberlain is off for a holiday. His policy this week longs a bit stronger, but the working classes think so much of bread and meat being dearer th laktisother matters to them of better trade, etc, and into oblivion.

No. 9. COLOMBO, March, 2nd 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs E. Benham & Co.

[42,104 lb.]

"Dalmatia."—Ukuwela A, 43 bags out.

CEYLON AND INDIAN PRODUCE: WEEKLY REVIEW AND CITY TALK.

London, E.C., 6 p.m., 13th Feb., 1904.

Bank Rate 4 per cent, tone firm, Silver dearer and should be bought. Cotton and Coffee had heavy declines and then jumped again, other markets are quiet, Spices, Mace, Nutmegs should be shipped and cheap sorts of Tea. Tea Shares would rather buy than sell.

COFFEE—September Santos 37/7½, market looks as sound as a bell, and buy in all flat markets.

SUGAR.—May 8/, and looks a purchase in flat moments.

COTTON.—American crop estimates 9½ to 11. It looks 10⅝ to 10,700,000. Manchester has been demoralised. April-May futures America after 8.90d dropped to 6.56d and closes 7.30d. Bulls talk 8¾d and Bears of 6½ to 6⅝d and would rather sell at tonight's prices and at 6¾d to 6 l. Would advise shipping best sorts of all kinds of Indian Cotton. Ceylon is talked of as a likely place to supply one million of bales of Cotton in the coming future. We recommend growing Cotton like American Texas Cotton, as Lancashire and Continental mills require this sort and it suits their machinery.

Mr Chamberlain has not been well and so—off for some few months! The Duke of Devonshire has been talking in Guildhall, but so far he does not suggest how to get the American Tariffs 73 per cent, Russian 120 per cent, and German 25 per cent reduced, so Mr Chamberlain's policy is still greatly admired and likely to be carried out in time. The War between Russia and Japan is expected to last three months or seven years or perhaps a hundred—should it develop into "Another Boer Guerilla War"! It has already caused some failures here and the talk in Lombard Street today is of more occurring shortly, which is deeply to be regretted. The open-door policy, thanks to Japan, seems now likely. All Russia wants is a Golden Bridge to retire over.

P.S.—SHELLAC—is considered a purchase at 180/ to 155/.

RUBBER FINE—4s 4d sold, tone quiet. F G F c i f A M Tinnivelly 5 15/16; good Westerns and Northerns c i f 5 11/32d, and wanted here for quick spot selling. Consols 86 13-16. Rupee paper 64. Silver 26 13-16. Plumbago and Coffee Ceylon, no sales.

No. 10. COLOMBO, March, 9th 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

"Yorkshire."—T in estate mark, 22 bags sold at 56s.

CEYLON AND INDIAN PRODUCE AND CITY TALK.

London, 19th Feb., 6 p.m., 1904.

The produce markets have been generally quiet except Cotton, Sugar, Quinine, Pepper and Tea, Silver 27 5/16, Bank Rate 4 per cent.

CEYLON CARDAMOMS—1d up for ordinary kinds, rest firm in price.

COFFEE—September Santos futures 36/1½.

CEYLON CINNAMON—is 7½d c i f and sellers shade under at the close.

CEYLON COCONUT OIL—firmer at £27 spot and c i f is £26 5s.

COTTON.—The American crop looks 10 millions to 10½. Bulls talk of 7½ and bears of 6½d to 6⅝d. The Cotton-Growing Co. report Production of the World American 11, India 3, Egypt 1, Rest World 1—*i.e.*, 16 millions of 500 lbs. Consumption 93,500,000 spindles in 1895 and now 101 millions. In 1900, 13,232,000 bales were required. So the annual consumption of the world is 400,000 to 500,000 per annum if it continues 10 years fully 4,000,000 required to present supplies. So Ceylon must buck up and see she gets *good seed* and to plant for American Cotton F G F M/J Tinnevelly 5⅞d. Spot 6 7-16 per lb.

A Church in the West End has been closed for good owing to week-end parties in the country becoming fashionable.

CEYLON RUBBER—7 cases retired after sale 4/7½ for Biscuits and for the scrap 3/3 to 3/6 per lb.—15 cases left. Sellers ask 4s 8d.

CEYLON PLUMBAGO—no sales; tone, firm.

City talk.—It is said Mr Chamberlain gave the people cheap Consols, but the fall this week is owing chiefly to the Fire Companies selling out to pay for the Fire in Baltimore. The majority at Westminster of 51 twice could have been increased. The Duke at the Guildhall did not show like Mr Chamberlain how to reduce the absurd Tariffs against this great country. The working classes, we are afraid, are not in favour of Mr Chamberlain's policy, but if he reduced the duties on Coffee, Wines, Spirits, Beer and Tobacco, he might easily win. As to the War the Stock Exchange gossip is, it will last seven years; but we don't think it will last seven months.

"OBSERVER" PRINTING WORKS.

TEA, COFFEE, CINCHONA, COCOA, AND CARDAMOM SALES.

No. 11. COLOMBO, March 16th 1904. { PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

"Ceylon,"—1 AM in estate mark, 133 bags out.

CEYLON AND INDIAN PRODUCE REPORT AND CITY TALK.

London, 26th Feb, 5 p.m., 1904.

The produce markets are quiet and firm and fair business doing; but Cotton and Coffee are highly feverish. Japan produce and Corn, Maize, Wheat, etc. strong and dearer. Ceylon Tea strong. Silver 26 11-16. Bank Rate 4 per cent.

CEYLON NUTMEGS—59s in shell fetched 7½d; poor and wormy and defective 7½d to 9d.

CEYLON PLUMBAGO—steady, slow and little doing. Ordinary to good lump bold 3/6 to 51/; 21 barrels sold bright dust at 12/3 per cwt.

CEYLON PARA SEED RUBBER—Scrap 3s 3d to 3s 6d and fine 4s 7d to 4s 9d, tone buoyant; No sales this week.

CEYLON WEED—easier 10s fair Ceylon paid.

CITRONELLA ESSENTIAL OILS—10 tons at 11½ per lb. c i f reported and spot is 1s 1d.

CEYLON CARDAMOMS—fetched full prices.

NUX VOMICA—is 8s 6d to 9s.

SEEDS CROTON—2 s 6d wanted by owners.

COFFEE.—Santos futures September 35s 6d. This market is talked of "as sound as a bell." We advise buying on declines.

SUGAR—May is 8s 2½d and still looks a bull card.

COTTON RAW.—Glad to hear about 310 bales of Indian Cotton going to the Southern Mills in America on trial. Mr Sully, of New York, says consumption is running a race with supply. Good seed is most important for growing good Cotton in Ceylon and India.

TEA CEYLON—firm. Everything was flat last Wednesday; yet Ceylon Shares were firmer and a small rise paid. Russia is a big buyer of Ceylon and Indian as she cannot get China Tea now, and this may give Russia more taste for Ceylon Tea and lead to large orders in the future.

City talk has been very dull and quiet this week, and little notice paid to Chinese working in African mines. It will pay the Chinaman, however. As to Capetown, talk is: people there are starving and rushing to all ships on arrival, for food—which is very serious.

The letters by last Indian mail arrived here by early Saturday's post. What is wanted is that letters should arrive here by 5 p.m. on Friday evenings.

COTTON.—The American crop looks 10 to 10½ millions—the ground for planting the next crop is seriously wrong owing to great shortage of rain in the South. The Bulls talk of 8d and 10d, the Bears talk of 7d down to 6⅞d. The weather has been cold and wintry, but nidification is on.

P.S.—The war talk is that Russia may seek to patch up a peace.

TEA, COFFEE, CINCHONA, COCOA, AND CARDAMOM SALES.

No. 12. COLOMBO, March 23rd 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

"Formosa."—Forest Hill 3, 3 cases out.

CEYLON AND INDIAN PRODUCE OUTLOOK AND COMMERCIAL TALK.

London, 5 p.m., 4th March, 1904.

Most markets are quiet, but Coffee, Cotton and Sugar seem feverish whilst active.

BANK RATE—4 per cent.

SHELLAC—quieter and looks a sale.

SUGAR—May Beet 8/4¼. Price seems still moderate.

COFFEE.—Santos September is 34s 3d; favor buying on declines.

CEYLON CINNAMON—cheaper.

COTTON.—Ceylon Tinnivelly, F G F c i f A/M M/I 5⅞d to 6⅛d per lb paid—at sea 338 bales. American crop now looks 10 to 10½ millions. Bulls talk of 9½d and Bears of 7½d. The new crop accounts are not very gay. Manchester is better. As June-July Americans 8·06d would rather sell up that buy.

CEYLON COCONUT OIL—£27 c i f due. Spot £28. £26 5 0 A/M.

CEYLON RUBBER—again stronger and prospects very strong. It will always sell well, i.e., of good quality.

CEYLON TEA SHARES—4/3/04—fair demand for best sorts; prospects good.

PLUMBAGO—selling well, and will do so if shipments are wisely sent.

"OBSERVER" PRINTING WORKS

No. 13. COLOMBO, March, 30th 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

"Historian."—1 Pilessa, 13 bags out.
"Derbyshire."—Batagolla London Ceylon Cocoa No. 1, 26 bags out; ditto No. 2, 1 sold at 49s.

CEYLON AND INDIAN PRODUCE NOTES AND SALES AND CITY TALK.

FOR WEEK ENDING 5 P.M., MARCH 11TH, 1904.

Produce markets are quiet, except Coffee, Cotton, Sugar, Cassia Oil and Shellac.

BANK RATE—4 per cent. Silver 26½d. Consols 85½ after 85⅝.

ORCHELLA WEEDgood, 12s buyers.

NUX VOMICA—best 8/7½ to 9/,

RUBBER—firm tone, and no sales publicly. Ceylon Rubber 3s to 4s 10½d.

CEYLON COFFEE—ranges for bold to fine 90 to 131s; rest 40s to 96s, and Native 39s to 50s 6d. Highest East India 126s. Santos September futures 33s 6d a purchase.

CEYLON COCOA—expected to decline.

CEYLON PLUMBAGO—firm, 30s to 35s 6d; middling to small good 19s to 29s; chips 12s to 17s; dust 6s to 10s.

COTTON—Regret to hear the Indian Broach crop injured by rains. Ceylon Tinnivelly May-June f g f 6¼ paid—whereas spot value 7 9-16d per lb. American old crop looks 10 to 10½ millions, and next crop accounts report want of rain. Bulls talk of 10d for American of course and Bears of 7½d. July-August is 8 44-100d a price would rather sell at O/N and September-October calls are £124 per 100 Bales. Manchester more doing.

CEYLON TEA—and Shares Prospects we get are very good, and not so good for Indian sorts.

Recommend shipments of Sugar, Coffee, Plumbago, Spices, Cotton, Tea, Kapok and Tree and Vegetable and Wild Cotton.

City talk rather dull this week.

Mr Brodrick admits it is necessary to stir up the Indian Government to further interest in Cotton-growing. Russia, in order to push her Cotton-growing, taxes American Cotton 2d per lb., *i.e.*, £400 on every hundred bales. This is pushing Cotton-growing to a fine point! Russia is sending yarns and cloth to North Indian markets. If she takes Indian Cotton in without a tax this is right, but if not above she should be taxed to same extent. Mr Brooke recommends Ceylon trying Egyptian seed, and testing the soil in Egypt and seeing time planted, temperature, etc., and of soil when crop plucked. Let Ceylon try and copy these points. Advance money to ryots like indigo planters do.

"OBSERVER" PRINTING WORKS.

No. 14. COLOMBO, April 13th 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs E. Benham & Co.

CEYLON AND INDIAN PRODUCE AND SALES AND CITY COMMERCIAL TALK.

For week ending 6 p.m., 18th March, 1904.

The markets are dull bar Sugar, Shellac, Quinine and Ceylon Rubber.

Silver—26 3-16.

Consols— 86 11-16.

Bank Rate— 4 per cent.

Coffee.—September Santos 33/7½, a safe price to buy down. In 1905-6 estimated 19,000,000 bags required.

Sugar.—Beet May 8/5 and prices should keep up the next 2 or 3 months.

Shellac—looks a sale.

Cotton.—American crop looks about 10½ millions and next crop acreage large, and may produce a crop from 10½ to 14 millions. The Bulls talk of 9d to 1s per lb. for July delivery, and the Bears of 7½d. Today September-October delivery is 6·84, which looks a purchase. The next American acreage may be 32 millions, and Fertilisers are being used heavily. The length of American Cotton staple is about 1⅛ inch, and this is what Ceylon should go for. The Australian Government used to give a bounty, and so should now the Indian Government. Tinnivelly Cotton F G F, C I F J/I Cotton is 6 5-16d per lb.

City talk this week, Stock Exchange things better. Some people with 14 clerks only got work enough for two! The City Corporation are fixing wire baskets in the city for orange peel, etc. —a useful thing. London Bridge improvement is much admired. Mr Chamberlain's Fiscal Policy looks brighter; and he is expected to be the Prime Minister ere long. What the country wants is free trade reciprocate, and failing that, blow for blow until the tariff walls come down to 10 or 20 per cent. Ceylon Tea and Tinned Milk should be pushed all over Germany. They drink in some parts a week scented tea. For 5 people they don't use one teaspoonful, and often drink it with Cognac—never milk, seldom sugar and it turns one-half sick. Some German and Russian papers are mad with rage about our insolence in going to Tibet. People starving in South Africa is upsetting news. England and France are good friends now the Egyptian-Newfoundland affairs are settled. Trade in America seems declining. A good deal of Cotton is held in the interior at dear top prices. Good Madras Northern Cotton new 5½d c i f, and would look cheap at 5d, and Tinnivelly f g f at 6d c i f.—Ceylon Rubber sold as high as 5s 3¾d.

CEYLON COCOA SALES IN LONDON.

Mincing Lane, March 19.

"Collegian."—Warriapolla, 21 bags sold at 82s; 112 sold at 62s 6d; 18 sold at 58s; 20 sold at 52s 6d.

CEYLON AND INDIAN PRODUCE SALES AND REPORT AND CITY TALK

FOR WEEK ENDING 25TH MARCH.

London, 6 p.m., 25th March, 1904.

The markets are mostly dull—bar Coffee, Sugar, Pepper and Shellac, which are higher. Bank Rate 4 per cent and looks like seeing 3 per cent. Beet Sugar here at 9s, is only at cost of production.

COFFEE—Santos Futures September 34/7½ and looks safe in price.

SUGAR—firmer, May Beet futures 8/7, tone good' and consumption here and on the Continent will continue large as Continental inhabitants are at last having cheap Sugar, thanks to the Brussels Convention and Mr Chamberlain.

CEYLON TEA—and Shares firm, and Stock safe for next year or two—all common sorts firm for some long period. It looks (like Cotton) as if consumption is limiting production!

PLUMBAGO—small to good 27s to 51s ; dust 3s to 12s ; chips 14s to 25s. Stock 304 against 540 tons last year.

CEYLON RUBBER.—Fine worth 5s to 5s 4d ; scrap 3s 7d to 4s 1d—tone good—and Americans buying.

COTTON.—More doing in Manchester futures, in Liverpool down from 8·99d to 7 25d for old crop. This crop looks 10¼, and the next 10 to 13½ millions. Acreage is big, but American Cotton after June to October in Liverpool will be seriously short. Bulls talk of 7¾ and Bears of 6⅞ for June-July futures, but 7¼d to us looks low. Indian Government should give prizes and bounties to E. I. Cotton-growers. Years ago Queensland Cotton arrived in London and most suitable Cotton too, but it dropped out all for the want of bounties. China Cotton here is too short in staple, F G F spot Tinnevelly is 7 3-16d on the spot—lowest was 2⅝d c i f in 1894. Fine Broach is 7 9-16d. Fine Egyptians 9¾d. As people will pay £200 to have the Call and Put of 100 bales of August-September Liverpool American Futures, it shows the value of opinions as regards Liverpool American Cotton, and to reading Manchester too!

CEYLON COCOA—free sellers with downward tendency.

"OBSERVER" PRINTING WORKS.

No. 15. COLOMBO, April, 20th 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

'Clan Chattan'—J B Ouvah, 6 casks sold at 63s.
No sales this week owing to holidays.

CEYLON AND INDIAN PRODUCE REVIEW.

London, 6 p.m., 8th April, 1904.

Easter holidays have upset business. The markets are generally dull—bar Coffee, Cotton, Sugar, Quinine, Shellac, Cloves and Cassia.

CEYLON COFFEE—supplies poor and better sorts sell splendidly. Bold to fine is 90s to 131s. Santos futures are 35/9 September, and should be bought down. Big crops from America are unlikely next six years.

CEYLON RUBBER (PARA)—3/ to 5/3¾.

SUGAR—May Beet looks cheap at 8s 7d and large increase of consumption on the Continent—thanks to Mr Chamberlain's policy.

PLUMBAGO—firm and little stirring.

COTTON—American crop looks 10,200,000 and next 10½ to 13½ millions. West Indian Cotton new crop is in and worth 8¾d per lb. So, perhaps, India should try and grow such Cotton instead of 4½d to 7 9-16d. Cotton 'F G F' spot Tinnevelly. 7 1-16 overland samples in of new crop Madras Cotton are satisfactory. May-June Futures American are 7·94d, a selling price. Bulls talk of 9d and Bears of 7¾d per lb. Short time is increasing and acreage for next crop very large. The Cotton King's failure is still unsettled—next meeting, 15th of April. F G F c i f Tinnevellys 6¼—good Madras Westerns and Northerns about 5 17-32d.

No. 17. COLOMBO, May, 4th 1904. { PRICE :—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

'Asia',—1 MAK in estate mark, 115 bags sold a ; 50s.

'Prometheus',—D B Hinguralla Estate, 32 bags out.

CEYLON AND INDIAN PRODUCE

for week ending 15th April, 1904.

MARKETS—rather quieter, although Bank Rate 3½ per cent. Gold is freely offered at 77s 9⅝d per oz.

RE GROWING CEYLON COTTON:—The future demand is always likely to be heavy. The population (world) is 1,500,000,000. 500 millions, they say, always wear clothes. 745 millions are clothed (partially) and 250,000,000 are running about quite naked. So the Cotton trade of the world should go on merrily from generation to generation. Reports from Manchester are better and Germany good, owing to the free use of Indian Cotton. American and Bombay mills doing badly. The American crop is expected now to be 10½ to 10⅝ millions. Next acreage huge and planting very early. All depends now on weather and the Boll weevil, which some say consumed one million bales last year; it is to be hoped it will never visit Ceylon. New Zealand Cotton is 9¼d; West Indian 8d to 8¾d. Spain is growing Cotton.

CEYLON NUTMEGS—114s 9d.

BLACK CEYLON PEPPER—2 bags sold at 5⅞d fair small sort.

CEYLON COCONUT—spot quiet, and afloat more enquiry.

COFFEE—September Santos 36/1½ and considered a buy down.

SUGAR—May Beet as 8/5½ buy down price.

"OBSERVER" PRINTING WORKS.

No. 18. COLOMBO, May, 11th 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

'Yeoman.'—CA & Co, 36 barrels sold at 10s 3d.

CEYLON AND INDIAN PRODUCE MARKETS.

(From our correspondents.)

Week ending 22nd April, 1904.

During past week business generally quiet, yet fair trade doing. Bank Rate 3 per cent.

COFFEE—futures September 35/9; people hope to see 50s and 60s.

SUGAR—firm, May 8/7½ and may see 9/.

COTTON.—Manchester more doing, but short time policy may yet continue. Trade in Germany good, where they use Indian Cotton, but in all other parts of the world it has been bad and in Bombay. American crop looks now 10½ millions and next 11 to 13 millions. Acreage about 30,000,000. July-August futures are 7·53d and look cheap to buy down. F G F Tinnivelly c i f 5 21·32d.

PLUMBAGO—quiet, slow.

RUBBER—no sales.

CITY TALK.—Tea firms think 2d extra on Tea will do no harm and improve the low sorts. Of course, we look upon it as a skilful move to help Chamberlain's Fiscal Policy, which may be, say 4d per lb off Tea. Something off Cocoa, Coffee, Spirits, Wines, Tobacco, Sugar, etc., and a little on meat and bread, so that the working classes will see a gain of, say, 1s 6d per week, and a loss of 1s. A 50 per cent gain would probably send this great commercial man to the top of the poll. The war looks all right. Manchuria will probably go back to China, which would be a nice Buffer state to Korea and the King-peacemaker here (King Edward) may again do the world a great turn by giving both parties a bridge to retire over.

No. 19. COLOMBO, May, 18th 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs. Gordon & Wilson.

'Clan Macpherson.'—KM in estate mark, 13 bags out.

'Clan Chattan.'—KMA in estate mark, 20 bags out.

CEYLON AND INDIAN PRODUCE REPORT

For week ending 29th April, 1904.

THE PRODUCE MARKETS continue dull, quiet, except Sugar, Shellac and Cloves, which are dearer. Bank Rate 3 per cent.

SUGAR BEET—May 8s 10d, and should rise further.

COFFEE—Santos futures September 35s 3d looks a purchase on all declines.

SENNA—Tinnivelly 1½d to 2d done.

WHITE CEYLON PEPPER—fine small at 9½d.

COCONUT OIL—dull.

COTTON—Manchester a bit busier ; this crop looks 10¼, next may be anything 10 to 13 millions. Acreage big. August receipts may be 2,000 bales or 300,000 bales, so double auctions buying October for 80 points may be cheap, in the end. Latest talk is of growing Cotton in Spain and Italy.

General business in London seems to be improving, but the volume of business keeps remarkably poor, and many city men are mightily troubled.

"OBSERVER" PRINTING WORKS.

No. 20. COLOMBO, May, 25th 1904. { PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs. Gordon & Wilson.

'Prometheus.'—B B Hinguralla Estate Cocoa, 32 bags out.

'Workman.'—KMA in estate mark, 90 bags out.

'Sinai.'—1J in estate mark, 8 bags out.

CEYLON AND INDIAN PRODUCE AND CITY TALK

For week ending 6 p m, 6th May, 1904.

THE PRODUCE MARKETS—are steady ; volume of business poor.

SUGAR—is active and Cloves and Quinine.

BANK RATE.—3 per cent tone easy. Consols 89½.

BLACK PEPPER—fine heavy Ceylon selling at 6½d.

COFFEE—Santos futures September 33/1½. Bulls expect improvement. Bears talk of 26/ would rather buy in flat markets.

SUGAR—active. Beet August is 9/1½ ; best Judges expect a rise of another 1s per cwt. Sweets in some London shops are still 4 ozs. 1d.

COTTON.—American crop looks 10¾, and next depends on the weather and insects and labour question. July-August Americans are 7 38-100d per lb. F G F c i f Tinnivelly 5 9-16, Spot 6 7-16d per lb.

CEYLON TEA—firm for low sorts and which are considered a bull card, but some City Brokers think all Teas now to pay. Some London Tea shops stick up 'Our best Teas at 1s 8d are not raised although duty 2d dearer."

CITY TALK.—What are Ceylon and India doing about trying American Cotton Seed? Some 42 tons going to Lagos and how many to Ceylon and India. City men asked. In America an area of 300,000,000 acres is available for Cotton. This year they are using 29 to 30,000,000. A funny thing is an acre in America produces 168 to 200 lb against 70 to 80 lb in India. West Africa we should estimate at 60 lb per acre.

Mr. S. Smith in Parliament said :—No amount of experiments would change the staple of Indian Cotton. Yet years ago Madras grew a long stapled Bourbon Seed Cotton. Texas Seed comes from Georgia and the Carolinas and this Seed should be tried in the Tinnivelly and Salem, Broach and Oomra districts, and over Ceylon. It seems the labour question in America is against a big crop being picked. They are thinking of importing Japanese to pick Cotton.

No. 21. COLOMBO, June, 1st 1904. PRICE:—12½ cents each, 3 copies 30 cents; 6 copies ½ rupee.

COLOMBO SALES OF TEA.

LARGE LOTS.

Messrs. Gordon & Wilson.
